Subject: Phase I Environmental Site Assessment
1029 West Capitol Avenue
West Sacramento, California 95691
Partner Project No. 23-431277.1

Dear Mr. Chen:

Partner Engineering and Science, Inc. (Partner) is pleased to provide this Phase I Environmental Site Assessment (Phase I ESA) report of the abovementioned address (the "subject property"). This assessment was performed in conformance with the scope and limitations as detailed in the ASTM Practice E1527-21 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process and Client Agreement.

This assessment included a site reconnaissance as well as research and interviews with representatives of the public, property ownership, site manager, and regulatory agencies. An assessment was made, conclusions stated, and recommendations outlined.

We appreciate your trust in Partner and the opportunity to provide environmental services to you. If you have any questions concerning this report, or if we can assist you in any other matter, please contact me at 916-796-0114.

Sincerely,

Brandon Sims
Relationship Manager

EXECUTIVE SUMMARY

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in accordance with the scope of work and limitations of ASTM Practice E1527-21, the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) and set forth by CDA+PDG, Inc. for the property located at 1029 West Capitol Avenue in West Sacramento, Yolo County, California (the "subject property"). The Phase I Environmental Site Assessment is designed to provide CDA+PDG, Inc. with an assessment concerning environmental conditions (limited to those issues identified in the report) as they exist at the subject property.

Property Description

The subject property is located on the southern side of West Capitol Avenue, the eastern side of Merkley Avenue, and the northern side of Tower Bridge Gateway within a commercial and residential area of Yolo County. Please refer to the table below for a further description of the subject property:

Subject Property Data	
Address:	1029 West Capitol Avenue, West Sacramento, California
Additional Current Addresses:	None Identified
Historical Addresses:	None Identified
Property Use:	Religious
Land Acreage (Ac):	14.12 Ac
Number of Buildings:	13
Number of Floors:	One and two
Gross Building Area (SF):	187,155 SF
Net Rentable Area (SF):	187,155 SF
Date of Construction:	Circa 1947 to 1957
Parcel Number:	067-320-005-000 (Parcel A); 067-320-004-000 (Parcel B); and 067-320-002-000 (Parcel C)
Type of Construction:	Conventional wood framing; concrete slab-on-grade foundations
Current Tenants:	City of Dharma Realm for religious use.
Site Assessment Performed By:	Alexandria Miranda of Partner
Site Assessment Conducted On:	January 15, 2024
Regulatory Radius Report Date:	January 8, 2024
Lien Search Date:	N/A
Report Date:	January 19, 2024
FOIAs Date:	January 2024

The subject property is currently occupied by City of Dharma Realm for religious use. On-site operations consist of religious services and activities, typical residential living, food preparation and service, administrative office activities, educational services, and routine facility maintenance. The City of Dharma Realm facility consists of a religious temple, staff housing, an office, a school, and temporary accommodation for guests during facility events. In addition to the current structures, the subject property is improved with asphalt-paved parking areas, sheds, a playground, perimeter fencing, and associated landscaping and drainage features.

According to available historical sources, the subject property was formerly unimproved land as early as 1907 until circa 1916; was developed with a farmstead in the northeastern portion of the property with the remainder developed as agricultural land from at least 1928 until circa 1937; and was developed with the current structures for use as a hotel in the late-1940s and 1950s. The site was converted for the current religious use in 1993. Tenants on the subject property have included El Rancho Hotel (1947-1993), Cin Dees Style Salon (1967-1970), Gay Ninety's Room, Merges Gift Shop, Hydraulic Dredging (1970), and Dharma Realm (1993-present).

The adjoining properties are tabulated below:

Adjoining Properties	
North:	West Capitol Avenue, beyond which are commercial properties (900, 920, 940, 958, 964, 1110, 1020, 1044, 1029, 1030, 1036 West Capitol Avenue)
Northeast:	Rodeway Inn Capitol (817 West Capitol Avenue)
East:	Grand Street, beyond which is an undeveloped lot (815 West Capitol Avenue)
Southeast:	Intersection of Tower Bridge Gateway and Grand Street/Delta Lane, beyond which is West Gateway Place Apartments (825 Delta Lane)
South:	Tower Bridge Gateway (Highway 275) beyond which is a residential neighborhood and vacant land
West:	Merkley Avenue and El Rancho Court, beyond which are West Sacramento Historical Museum (1075 West Capitol Avenue), Sacramento City College West Sacramento Center (1115, 1141 West Capitol Avenue), Arther F. Turner Community Library (1212 Merkley Avenue), and River City Apostolic Church (1205 Merkley Avenue)

According to a previous subsurface investigation conducted on a nearby property, groundwater in the vicinity of the subject property is inferred to be 5 to 10 feet below ground surface (bgs) and groundwater flow is inferred to be toward the southwest.

Findings and Opinions

Recognized Environmental Condition

A recognized environmental condition (REC) refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

- Partner did not identify evidence of RECs during the course of this assessment.

Controlled Recognized Environmental Condition

A controlled recognized environmental condition (CREC) refers to a REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify evidence of CRECs during the course of this assessment.

Historical Recognized Environmental Condition

A historical recognized environmental condition (HREC) refers to a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify evidence of HRECs during the course of this assessment.

Business Environmental Risk

A Business Environmental Risk (BER) is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice. The following was identified during the course of this assessment:

- During the site reconnaissance, Partner observed one groundwater monitoring well on the southern portion of the subject property. Site personnel were unaware of the presence of this monitoring well at the subject property. No information was provided regarding the ownership or purpose of the well. Additional review into nearby release sites did not identify the purpose of the well and the well does not appear to be associated with off-site release cases. According to the escorts the well has not been sampled since Dharma Realm acquired the property in 1993, as no access has been granted by outside entities to do so. The purpose of the well is unknown. Because the monitoring well can act as a direct conduit to the subsurface, if not intended for future use, it should be abandoned/destroyed in accordance with applicable regulations.
- Due to the age of the subject property buildings, there is a potential that asbestos-containing materials (ACMs) and/or lead-based paint (LBP) are present. A few areas of the building materials, however, were noted during the assessment to be broken, chipped, and/or have signs of disrepair. Should these materials be replaced, the identified suspect ACMs would need to be sampled to confirm the presence or absence of asbestos prior to any renovation or demolition activities to prevent potential exposure to workers and/or building occupants.

Significant Data Gaps

No significant data gaps affecting the ability of the Environmental Professional to identify a REC were encountered during this assessment.

Conclusions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of the property located at 1029 West Capitol Avenue in West Sacramento, Yolo County, California (the “subject property”). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of RECs, CRECs, or HRECs in connection with the subject property; however, evidence of BERs was identified. Based on the conclusions of this assessment, Partner recommends the following:

- If not intended for future use, the on-site monitoring well should be abandoned/destroyed in accordance with applicable regulations.
- An Operations and Maintenance (O&M) Program should be implemented in order to safely manage the suspect ACMs and LBP located at the subject property.

APPENDICES

Appendix A: Site Photographs
Appendix B: Historical/Regulatory Documentation
Appendix C: Regulatory Database Report
Appendix D: Qualifications

1.0 INTRODUCTION

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in conformance with the scope and limitations of ASTM Practice E1527-21 and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) for the property located at 1029 West Capitol Avenue in West Sacramento, Yolo County, California (the "subject property"). Any exceptions to, or deletions from, this scope of work are described in the report.

1.1 Purpose

The purpose of this ESA is to identify existing or potential Recognized Environmental Conditions (as defined by ASTM Standard E1527-21) affecting the subject property that: 1) constitute or result in a material violation or a potential material violation of any applicable environmental law; 2) impose any material constraints on the operation of the subject property or require a material change in the use thereof; 3) require clean-up, remedial action or other response with respect to Hazardous Substances or Petroleum Products on or affecting the subject property under any applicable environmental law; 4) may affect the value of the subject property; and 5) may require specific actions to be performed with regard to such conditions and circumstances. The information contained in the ESA Report will be used by Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout or seller financing; 2) evaluate the subject property's overall development potential, the associated market value and the impact of applicable laws that restrict financial and other types of assistance for the future development of the subject property; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout or seller financing of the subject property.

This ESA was performed to permit the User to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) liability (hereinafter, the "landowner liability protections," or "LLPs"). ASTM Standard E1527-21 constitutes "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined at 42 U.S.C. §9601(35)(B).

1.2 Scope of Work

The scope of work for this ESA is in accordance with and to the extent necessary to achieve the goal of the requirements set forth in the ASTM Standard E1527-21. This assessment included: 1) a property and adjoining site reconnaissance; 2) interviews with key personnel; 3) a review of historical sources; 4) a review of regulatory agency records; and 5) a review of a regulatory database report provided by a third-party vendor. Partner contacted local agencies, such as environmental health departments, fire departments and building departments to obtain readily ascertainable information to determine any current and/or former hazardous substances usage, storage and/or releases of hazardous substances on the subject property. Additionally, Partner researched readily available information on the presence of activity and use limitations (AULs) at these agencies. As defined by ASTM E1527-21, AULs include both legal (that is, institutional) and physical (that is, engineering) controls that may include legal or physical restrictions or limitations on the use of, or access to, a site or facility: 1) to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil, soil vapor, groundwater, or surface water on the subject property; or 2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment. These legal or physical restrictions, which may include institutional and/or engineering controls (IC/ECs), are intended to prevent adverse impacts to individuals or populations that may be exposed to hazardous substances and petroleum products in the soil, soil vapor, groundwater, and/or surface water on a property.

If requested by Client, this report may also include the identification, discussion of, and/or limited sampling of asbestos-containing materials (ACMs), lead-based paint (LBP), mold, and/or radon.

1.3 Limitations

Partner warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in the Scope of Work. These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions. There is a possibility that even with the proper application of these methodologies there may exist on the subject property conditions that could not be identified within the scope of the assessment or which were not reasonably identifiable from the available information. Partner believes that the information obtained from the record review and the interviews concerning the subject property is reliable. However, Partner cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. The conclusions and findings set forth in this report are strictly limited in time and scope to the date of the evaluations. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. No other warranties are implied or expressed.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This report is subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollections of those persons contacted.

This practice does not address requirements of any state or local laws or of any federal laws other than the all appropriate inquiry provisions of the LLPs. Further, this report does not intend to address all of the compliance and safety concerns, if any, associated with the subject property.

Environmental concerns, which are beyond the scope of a Phase I ESA as defined by ASTM include the following: ACMs, LBP, radon, and lead in drinking water. These issues may affect environmental risk at the subject property and may warrant discussion and/or assessment; however, are considered non-scope issues. If specifically requested by the Client, these non-scope issues are discussed in Section 6.3.

1.4 User Reliance

CDA+PDG, Inc. (herein referred to as Client) engaged Partner to perform this assessment in accordance with an agreement governing the nature, scope and purpose of the work as well as other matters critical to the engagement. All reports, both verbal and written, are for the sole use and benefit of Client. Either verbally or in writing, third parties may come into possession of this report or all or part of the information generated as a result of this work. In the absence of a written agreement with Partner granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action against Partner, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold Partner, Client and their respective officers, employees, vendors, successors and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys' fees) and costs attributable to such Use. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply.

This report has been completed under specific Terms and Conditions relating to scope, relying parties, limitations of liability, indemnification, dispute resolution, and other factors relevant to any reliance on this report. Any parties relying on this report do so having accepted the Terms and Conditions for which this report was completed. A copy of Partner's standard Terms and Conditions can be found at http://www.partneresi.com/terms-and-conditions.php.

1.5 Limiting Conditions

The findings and conclusions contain all the limitations inherent in these methodologies that are referred to in ASTM Practice E1527-21. Specific limitations and exceptions to this ESA are set forth below:

- Partner was unable to determine the property use at five-year intervals, which constitutes a data gap. Except for property tax files and recorded land title records, which were not considered to be sufficiently useful, Partner reviewed all standard historical sources and conducted appropriate interviews. This data gap is not expected to alter the findings of this assessment.
- Interviews with past or current owners, operators, and occupants were not reasonably ascertainable and thus constitute a data gap. Based on information obtained from other sources (as discussed in Section 3.0), this data gap is not expected to alter the findings of this assessment.
- Partner requested information relative to deed restrictions and environmental liens, a title search, and completion of the AAI User Questionnaire from the Report User. This information was not provided at the time of the assessment. This data gap is not expected to alter the findings of this assessment.
- Partner inspected approximately ten percent of all interior units and all common areas. Based on the size and nature of use of the uninspected units (Identify tenants), this limited method of inspection is not expected to alter the overall findings of this assessment.

2.0 SITE DESCRIPTION

2.1 Site Location and Legal Description

The subject property at 1029 West Capitol Avenue in West Sacramento, California, is located on the southern side of West Capitol Avenue, the eastern side of Merkley Avenue, and the northern side of Tower Bridge Gateway. According to information obtained from the Yolo County Assessor, the subject property is identified as Assessor Parcel Numbers (APNs) 067-320-005-000, 067-320-004-000, and 067-320-002-000, and ownership has been vested in Dharma Realm Buddhist Association since 1993.

Please refer to Figure 1: Site Location Map, Figure 2: Site Plan, Figure 3: Topographic Map, and Appendix A: Site Photographs for the location and site characteristics of the subject property.

2.2 Current Property Use

The subject property is currently occupied by City of Dharma Realm for religious use. On-site operations consist of religious services and activities, typical residential living, food preparation and service, administrative office activities, educational services, and routine facility maintenance. The City of Dharma Realm facility consists of a religious temple, staff housing, an office, a school, and temporary accommodation for guests during facility events. The subject property is developed with two 2-story buildings and 11 single-story buildings located throughout the property. In addition to the current structures, the subject property is improved with asphalt-paved parking areas, sheds, a playground, perimeter fencing, and associated landscaping and drainage features.

The subject property is designated for central business district development by the City of West Sacramento.

The subject property is identified as a Federal Brownfield Sites (FED BROWNFIELDS) and a Facility Registry Service/Facility Index (FINDS/FRS) site in the regulatory database report, as further discussed in Section 4.2.

2.3 Current Use of Adjoining Properties

The subject property is located within a commercial and residential area of Yolo County. During the vicinity reconnaissance, Partner observed the land uses on adjoining properties, defined in ASTM Practice E1527-21 as any real property or properties the border of which is contiguous or partially contiguous with that of the property, or that would be contiguous or partially contiguous with that of the property but for a street, road, or other public thoroughfare separating them. The adjoining properties are tabulated below:

Adjoining Properties	
North:	West Capitol Avenue, beyond which are commercial properties (900, 920, 940, 958, 964, 1110, 1020, 1044, 1029, 1030, 1036 West Capitol Avenue)
Northeast:	Rodeway Inn Capitol (817 West Capitol Avenue)
East:	Grand Street, beyond which is an undeveloped lot (815 West Capitol Avenue)
Southeast:	Intersection of Tower Bridge Gateway and Grand Street/Delta Lane, beyond which is West Gateway Place Apartments (825 Delta Lane)
South:	Tower Bridge Gateway (Highway 275) beyond which is a residential neighborhood and vacant land
West:	Merkley Avenue and El Rancho Court, beyond which are West Sacramento Historical Museum (1075 West Capitol Avenue), Sacramento City College West Sacramento Center (1115, 1141 West Capitol Avenue), Arther F. Turner Community Library (1212 Merkley Avenue), and River City Apostolic Church (1205 Merkley Avenue)

The adjoining properties are identified as FED BROWNFIELDS, FINDS/FRS, Voluntary Cleanup Program (VCP), Resource Conservation and Recovery Act (RCRA) Non-Generator (NON GEN), California Environmental Reporting System (CERS) Hazardous Waste Sites (HAZ), Yolo County Certified Unified Program Agency (CUPA YOLO), Generators from Hazardous Waste Manifest Data (HAZ GEN), Historical California Hazardous Materials Incident Report System (HIST CHMIRS), Delisted CERS HAZ Sites (DELISTED HAZ), Toxic Pollutant Emissions Facilities (EMISSIONS), EnviroStor Database (ENVIROSTOR), Delisted County Records (DELISTED COUNTY), Historical Hazardous Substance Storage Information Database (HHSS), Historical Hazardous Substance Storage Container Information-Facility Summary (HIST TANK), Leaking Underground Storage Tank (LUST), Yolo County LUST Sites (LUST YOLO), Yolo County UST Sites (UST YOLO), CalSites Database (CALSITES), and Construction and Demolition Debris Recycling Facilities (C&D DEBRIS RECY) sites in the regulatory database report, as further discussed in Section 4.2.

2.4 Physical Setting Sources

2.4.1 Topography

The 2022 United States Geological Survey (USGS) *Sacramento West, California* Quadrangle 7.5-minute series topographic map was reviewed for this ESA. According to the contour lines on the topographic map, the subject property is located at approximately 25 feet above mean sea level (MSL). The contour lines in the area of the subject property indicate the area is relatively flat.

A copy of the reviewed topographic map is included as Figure 3 of this report.

2.4.2 Hydrology

According to a previous subsurface investigation conducted on a nearby property, groundwater in the vicinity of the subject property is inferred to be 5 to 10 feet bgs and groundwater flow is inferred to be toward the southwest.

The nearest surface water in the vicinity of the subject property is Sacramento River located approximately 3,000 feet to the southeast. No settling ponds, lagoons, surface impoundments, wetlands, or natural catch basins were observed at the subject property during this assessment.

According to available information, a public water system operated by the City of West Sacramento Public Works Department (WSPWD) serves the subject property vicinity. The sources of public water for the WSPWD are surface water from the Sacramento River .

2.4.3 Geology/Soils

The subject property is located within the Sacramento Valley Groundwater Basin, Yolo Subbasin. Fresh water bearing units within the subbasin include younger alluvium, older alluvium, and the Tehama Formation, with a cumulative thickness in the Site area of approximately 3,000 feet. The younger alluvium deposits generally consist of silts and clays with interbedded stream channel deposits, and range in thickness from 0 to 150 feet. The older alluvium generally consists of loose to moderately compacted silts, clays, sands and gravels, and ranges in thickness from 60 to 130 feet. Groundwater yield in the older alluvium varies significantly depending on type of deposits penetrated.

Based on information obtained from the United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) Web Soil Survey online database, the subject property is mapped as Valdez silt loam. The Valdez series consists of very deep, poorly drained soils that formed from parent material fine-silty alluvium derived from igneous, metamorphic and sedimentary rock over clayey alluvium derived from igneous, metamorphic, and sedimentary rock. These soils form in deltas. Slopes range from 0 to 2 percent.

2.4.4 Flood Zone Information

Partner performed a review of the Flood Insurance Rate Map, published by the Federal Emergency Management Agency. According to Community Panel Number 06067C0160J, dated June 16, 2015, FEMA has not completed a study to determine flood hazards for the subject property area; therefore, a flood map has not been published at this time.

A copy of the reviewed flood map is included in Appendix B of this report.

3.0 HISTORICAL INFORMATION

Partner obtained historical use information about the subject property from a variety of sources. A chronological listing of the historical data found is summarized in the table below:

Historical Use Information		
Years	**Resource**	**Description/Use**
1907-1916	Topographic Maps	Unimproved land
1928-1937	Aerial Photographs, Topographic Maps	Farmstead and agricultural land
1947-1993	Aerial Photographs, City Directories, Topographic Maps, Agency Records, Client-Provided Information	Hospitality
1993-Present	Aerial Photographs, City Directories, Topographic Maps, Agency Records, Client-Provided Information, Interviews, Site Observations	Religious

Tenants on the subject property have included El Rancho Hotel (1947-1993), Cin Dees Style Salon (1967-1970), Gay Ninety's Room, Merges Gift Shop, Hydraulic Dredging (1970), and Dharma Realm (1993-present).

The subject property was historically used for agricultural purposes. There is a potential that agricultural chemicals such as pesticides and fertilizers were used on-site. However, no specific areas of concern (e.g. product mishandling, releases, spills, incidents, etc.) related to agricultural chemical storage and use at the subject property have been identified during the course of this assessment. The subject property has since been redeveloped with the existing improvements and the majority of the site has been covered with relatively impervious surfaces (including buildings and paved areas) since that time, which minimizes direct contact with any potential remaining concentrations in the soil. Additionally, during previous site development activities, near surface soils (where residual agricultural chemical concentrations would have likely been present, if at all) were generally mixed with fill material or disturbed during grading. Also, it is common that engineered fill material is placed over underlying soils as part of the development activities. Furthermore, it is likely that residual agricultural chemicals (if any) would have likely degraded since the site was last utilized for agricultural purposes. Based on these reasons, Partner concludes that the possible former use of agricultural chemicals is not expected to represent an environmental concern at this time.

No other potential environmental concerns were identified in association with the current or former uses of the subject property.

3.1 Aerial Photograph Review

Partner obtained available aerial photographs of the subject property and surrounding area from Environmental Risk Information Services (ERIS) on January 8, 2024. The inferred uses of the subject property and adjoining properties as interpreted from the aerial photographs in Appendix B are tabulated below:

Date:	***1928***	***Scale:***	***1"=500'***
Subject Property:	Appears to be developed as agricultural land with supporting agricultural structures in the northeastern portion of the property.		
North:	Appears to be developed as agricultural land beyond a road.		
Northeast:	Appears to be developed as agricultural land.		

Date:	1928	Scale:	1"=500'
East:	Appears to be developed as agricultural land with likely supporting agricultural structures to the northern portion.		
Southeast:	Appears to be developed as agricultural land.		
South:	Appears to be developed as agricultural land.		
West:	Appears to be developed as agricultural land.		

Date:	1937	Scale:	1"=500'
Subject Property:	No significant changes visible.		
North:	Appears to be developed with a commercial type building to the eastern portion.		
Northeast:	No significant changes visible.		
East:	No significant changes visible.		
Southeast:	No significant changes visible.		
South:	No significant changes visible.		
West:	No significant changes visible.		

Date:	1947	Scale:	1"=500'
Subject Property:	Appears to be developed with six of the current buildings in the northern and central portions.		
North:	No significant changes visible.		
Northeast:	No significant changes visible.		
East:	Appears to be developed with a structure to the north.		
Southeast:	Appear to be developed with a building.		
South:	Appears to be undeveloped.		
West:	Appears to be developed with three commercial type buildings beyond the road.		

Date:	1952	Scale:	1"=500'
Subject Property:	Appears to be developed with three additional current buildings in the central-southern portion.		
North:	Appears to be developed with three buildings to the west across the road.		
Northeast:	Appears to be used as a storage lot.		
East:	Appear to be developed with various commercial buildings to the north and west with a storage yard to the east across a road.		
Southeast:	Appears to be developed with an intersection of a highway and off-ramp.		
South:	Appears to be developed with a highway beyond which is undeveloped other than a commercial building to the east.		
West:	No significant changes visible.		

Date:	1957	Scale:	1"=500'
Subject Property:	Appears to be developed with the remainder of the current buildings in the southern portion.		
North:	Appears to be developed with additional current buildings to the central and eastern portions across the road.		
Northeast:	Appears to be developed with the current commercial building to the central portion.		
East:	No significant changes visible.		
Southeast:	No significant changes visible.		
South:	No significant changes visible.		
West:	No significant changes visible.		

Date:	1961, 1966, 1971, 1976	Scale:	1"=500'
Subject Property:	No significant changes visible.		
North:	Appears to be developed with the current building to the eastern portion across the road.		
Northeast:	No significant changes visible.		
East:	No significant changes visible.		
Southeast:	Appears to be developed with a small structure beyond the highway and off-ramp by 1966.		
South:	Appears to be developed with a commercial type building to the central portion beyond the highway.		
West:	No significant changes visible.		

Date:	1978, 1981, 1987	Scale:	1"=500'
Subject Property:	Appears to be developed with tennis courts by 1981.		
North:	No significant changes visible.		
Northeast:	No significant changes visible.		
East:	No significant changes visible.		
Southeast:	No significant changes visible.		
South:	No significant changes visible.		
West:	Appears to be developed with additional commercial buildings to the south across the road.		

Date:	1993, 1998	Scale:	1"=500'
Subject Property:	No significant changes visible.		
North:	No significant changes visible.		
Northeast:	No significant changes visible.		
East:	Appear to be undeveloped across a road.		
Southeast:	No significant changes visible.		
South:	No significant changes visible.		
West:	Appears to be undeveloped to the northern portion other than a commercial type building to the north (likely service station) beyond the road.		

Date:	2003	Scale:	1"=500'
Subject Property:	No significant changes visible.		
North:	No significant changes visible.		
Northeast:	No significant changes visible.		
East:	No significant changes visible.		
Southeast:	No significant changes visible.		
South:	No significant changes visible.		
West:	The northern portion of the property appears to be undeveloped across the road.		

Date:	2005	Scale:	1"=500'
Subject Property:	No significant changes visible.		
North:	No significant changes visible.		
Northeast:	No significant changes visible.		
East:	No significant changes visible.		
Southeast:	No significant changes visible.		
South:	Appears to be undeveloped to the central portion across the highway.		
West:	No significant changes visible.		

Date:	2009	Scale:	1"=500'
Subject Property:	No significant changes visible.		
North:	No significant changes visible.		
Northeast:	No significant changes visible.		
East:	No significant changes visible.		
Southeast:	Appears to be developed with an intersection of two roads beyond which is undeveloped.		
South:	Appears to be developed with the current residential buildings to the central portion across the road.		
West:	Appears to be developed with a commercial type building to the northern portion across the road.		

Date:	2012, 2014	Scale:	1"=500'
Subject Property:	No significant changes visible.		
North:	No significant changes visible.		
Northeast:	No significant changes visible.		
East:	No significant changes visible.		
Southeast:	No significant changes visible.		
South:	Appears to be developed with the additional current residential type buildings across the road.		
West:	Appears to be developed with the current commercial building to the north and central portion across the road.		

Date:	2016, 2018, 2022	Scale:	1"=500'
Subject Property:	No significant changes visible.		
North:	No significant changes visible.		
Northeast:	No significant changes visible.		
East:	No significant changes visible.		
Southeast:	Appears to be developed with the current multi-residential building beyond an intersection.		
South:	No significant changes visible.		
West:	No significant changes visible.		

Copies of reviewed aerial photographs are included in Appendix B of this report.

3.2 Fire Insurance Maps

Partner reviewed the collection of fire insurance maps (FIMS) from ERIS on January 7, 2024. The following inferred uses of the subject property and adjoining properties interpreted from the FIMs in Appendix B are tabulated below:

Date:	1951
Subject Property:	Not depicted.
North:	Not depicted.
Northeast:	Not depicted.
East:	Not depicted.
Southeast:	Depicted as developed with a building occupied by Riske Trucking Co.
South:	Not depicted.
West:	Not depicted.

Date:	1960, 1968, 1970
Subject Property:	Not depicted.
North:	Not depicted.
Northeast:	Not depicted.
East:	Not depicted.
Southeast:	Not depicted.
South:	Not depicted.
West:	Depicted as developed with five commercial buildings occupied by stores and a post office to the east and north. The northern portion is depicted as occupied by a service station across Merkley Avenue.

Copies of reviewed FIMs are included in Appendix B of this report.

3.3 City Directories

Partner reviewed historical city directories obtained from ERIS on January 11, 2024 for past names and businesses that were listed for the subject property and adjoining properties. The findings are tabulated below:

City Directory Search for 1029 W Capitol Ave (Subject Property)	
Year(s)	**Occupant Listed**

According to the city directory review, the adjoining property to the west was historically occupied by a service station and dry cleaning businesses from as early as 1956 to circa 1970. Please refer to Section 4.2.3 for further discussion.

Copies of reviewed city directories are included in Appendix B of this report.

3.4 Historical Topographic Maps

Partner reviewed historical topographic maps obtained from ERIS on January 7, 2024. The following inferred uses of the subject property and adjoining properties interpreted from topographic maps in Appendix B and are tabulated below:

Date:	***1907, 1916***
Subject Property:	Depicted as unimproved land.
North:	Depicted as unimproved land.
Northeast:	Depicted as developed with a building.
East:	Depicted as unimproved land.
Southeast:	Depicted as unimproved land.
South:	Depicted as developed with a pumping plant.
West:	Depicted as unimproved land.

Date:	***1948, 1949***
Subject Property:	Depicted as developed with six buildings in the northern and central portion.
North:	Depicted as developed with two commercial buildings across a road.
Northeast:	No significant changes depicted.
East:	Depicted as developed with two buildings to the north across an unpaved road.
Southeast:	Depicted as developed with a building across an unpaved road.

Date:	1948, 1949
South:	Depicted as undeveloped.
West:	Depicted as developed with three buildings across a road.

Date:	1954
Subject Property:	Depicted as developed with additional buildings in the southwestern portion.
North:	Depicted as developed with additional commercial buildings across a road.
Northeast:	No significant changes depicted.
East:	Depicted as developed with a road and off-ramp beyond which is undeveloped.
Southeast:	Depicted as developed with an off-ramp beyond the highway.
South:	Depicted as developed with a freeway beyond which is undeveloped.
West:	No significant changes depicted.

Date:	1967, 1975, 1980, 1992
Subject Property:	Depicted as shaded representing an urban area.
North:	Depicted as shaded representing an urban area beyond the road.
Northeast:	Depicted as shaded representing an urban area.
East:	Depicted as shaded representing an urban area across a road and off-ramp.
Southeast:	Depicted as developed with a building beyond an off-ramp and highway.
South:	Depicted as developed with a building across the highway.
West:	Depicted as shaded representing an urban area beyond a road.

Date:	2015, 2018, 2022
Subject Property:	Structural improvements are not depicted on this map series.
North:	Structural improvements are not depicted on this map series.
Northeast:	Structural improvements are not depicted on this map series.
East:	Structural improvements are not depicted on this map series.
Southeast:	Structural improvements are not depicted on this map series.
South:	Structural improvements are not depicted on this map series.
West:	Structural improvements are not depicted on this map series.

Copies of reviewed topographic maps are included in Appendix B of this report.

4.0 REGULATORY RECORDS REVIEW

4.1 Regulatory Agencies

State Department

Regulatory Agency Data	
Name of Agency:	California Environmental Protection Agency (CalEPA)
Point of Contact:	https://siteportal.calepa.ca.gov/nsite/
Agency Address:	1001 I Street, P.O. Box 2815, Sacramento, California 95812
Agency Phone Number:	(916) 324-9670
Date of Contact:	January 11, 2024
Method of Communication:	Online Research
Summary of Communication: No records regarding hazardous substance use, storage, or releases, or the presence of USTs and AULs on the subject property were on file with the CalEPA.	

Health Department

Regulatory Agency Data	
Name of Agency:	Yolo County Environmental Health Division (EHD)
Point of Contact:	http://docs.yolocounty.org/PublicAccess-EHE/
Agency Address:	292 West Beamer Street, Woodland, California 95695
Agency Phone Number:	(530) 669-1448
Date of Contact:	January 12, 2024
Method of Communication:	Online Research
Summary of Communication: According to records of reviewed, food facility permits, special event permits, a tax exemption letter, and food facility inspection reports were available for review. Additionally, a permit for the installation of a commercial kitchen and grease interceptor was reviewed, dated October 7, 2010 (additional information regarding the interceptor is further discussed in Section 6.2.7). One monitoring well and soil boring permit application form was reviewed dated January 26, 2018. According to the application, three geotechnical soil borings were drilled to the south of the main building parking lot. The borings were then abandoned on February 7, 2018. Based on the nature of reviewed records and reported abandonment of exploratory geotechnical soil borings, these records are not expected to represent an environmental concern.	

Fire Department

Regulatory Agency Data	
Name of Agency:	West Sacramento Fire Department (WSFD)
Point of Contact:	Online Database
Agency Address:	2040 Lake Washington Boulevard, West Sacramento, California 95691
Agency Phone Number:	(916) 617-5029
Date of Contact:	January 11, 2024
Method of Communication:	Online Research

Summary of Communication:
According to records reviewed, the subject property had one application submitted on April 2, 2014 for accessibility hardship that was denied. A second stop work for a reroof permit was issued on September 24, 2018. Based on the nature of the reviewed records, these records are not expected to represent an environmental concern.

Building Department

Regulatory Agency Data	
Name of Agency:	West Sacramento Building Division (WSBD)
Point of Contact:	https://access.cityofwestsacramento.org/
Agency Address:	1110 West Capitol Avenue, West Sacramento, California 95691
Agency Phone Number:	(916) 617-4683
Date of Contact:	January 17, 2024
Method of Communication:	Online Research

Summary of Communication:
Records were available for review, as summarized in the following table:

Building Records Reviewed for 1029 West Capitol Avenue (Subject Property)		
Year(s)	**Owner/Applicant**	**Description**
2000	N/A	120SQS T/O REROOF AND REROOF 180SQS OVERLAY
2001	N/A	PROPERLY VENT 2 WATER HEATERS IN KITCHEN
2002	N/A	ON-SITE FIRE LINE
2002	N/A	INSTALL ON-SITE FIRE LINE
2003	N/A	FIRE HYDRANT REPLACEMENT
2003	N/A	T/O REROOF OF 50 SQS W/COMPOSITION
2005	N/A	DEMOLISH TWO NONBEARING INTERIOR WALLS LOCATED IN THE 'CARD ROOM', CURRENTLY USED AS A LECTURE ROOM.
2007	Dharma Realm	5880 SF RESTAURANT T.I.
2009	N/A	ELECTRICAL PEDESTAL AND METER RELEASE FOR TRAFFIC SIGNALS, STREET LIGHTS & IRRIGATION
2010	Dharma Realm	NEW KITCHEN, ADA RESTROOM UPGRADES, NEW RAMP FOR ACCESSIBILITY, NEW GREASE INTERCEPTOR (DHARMA REALM)
2011	N/A	T.I.-CONVERT HOTEL ROOMS INTO CLASSROOMS, DEMO EXISTING BATHROOMS, ADD 2 NEW BATHROOMS
2011	N/A	TENANT IMPROVEMENT- EXISTING HOTEL TO EDUCATION - 4381SF
2011	N/A	FIRE ALARM MONITORING SYSTEM
2011	N/A	FIRE SPRINKLERS TO NEW SCHOOL-INSTILLING GOODNESS-174 HEADS
2011	N/A	INTERIOR DEMOLITION - 4,337 SF. 2ND FLOOR ONLY
2012	N/A	REROOF OVERLAY 490 SQ TPO SINGLE-PLY
2012	N/A	REPAIR ROOF BEAMS IN DINING HALL
2013	N/A	REISSUE OF 12-08-134. REROOF OVERLAY 490SQ.
2013	N/A	REROOF OVERLAY. REISSUE OF

2013	N/A	HVAC
2013	N/A	HVAC
2014	N/A	Commercial - VANDALISM REPAIR-REPLACE ELEC PANEL, WIRING AND CONDUIT. SUBJECT TO FIELD INSPECTION
2014	N/A	Commercial - C/O CIRCUIT BREAKERS IN ELECTRICAL METER.
2016	N/A	Commercial - T/O REROOF 50 SQS WITH TPO-190 SQS W/MODIFIED BITUMEN UNDERLAYMENT UTILITZING EXISTING CLAY TILE
2017	N/A	Commercial - T/O AND REROOF 18 SQUARES WITH TPO - 250 SQUARES W/ MODIFIED BITUMEN UNDERLAYMENT UTILIZING EXISTING CLAY TILE.
2018	N/A	Commercial - T/O REROOF W/METAL ROOFING (50 SQS-STORAGE BLDG)
2019	N/A	Commercial - T/O & REROOF 130 SQ CONCRETE TILE & 18 SQ TPO
2019	N/A	Commercial - T/O & REROOF 80 SQ TILE
2019	N/A	Commercial - T/O & REROOF 380 SQ TILE ROOFING
2020	N/A	Commercial - T/O, RESHEET & REROOF 61 SQ TILE ROOFING
2020	N/A	Commercial - T/O, RESHEET, & REROOF 141 SQ TILE ROOFING
2020	N/A	ROOFMOUNT PV 19.77KW & 6.79KW - 2 METERS
2021	N/A	Commercial - T/O & REROOF 76SQ TILE ROOFING
2022	N/A	FIRE ALARM UPGRADE

Oil & Gas Exploration

Regulatory Agency Data	
Name of Agency:	California Geologic Energy Management (CalGEM)
Point of Contact:	https://maps.conservation.ca.gov/doggr/wellfinder/#openModal
Agency Address:	801 K Street, MS 24-01, Sacramento, California
Agency Phone Number:	(916) 323-1886
Date of Contact:	January 12, 2024
Method of Communication:	Online Research
Summary of Communication: According to CalGEM, no oil or gas wells are located on or adjoining to the subject property.	

Assessor's Office

Regulatory Agency Data	
Name of Agency:	Yolo County Assessor (YCA)
Point of Contact:	https://www.yolocounty.org/general-government/general-government-departments/assessor/
Agency Address:	625 Court Street, Suite 104, Woodland, California 95695
Agency Phone Number:	(530) 666-8135
Date of Contact:	January 15, 2024
Method of Communication:	Online Research

Summary of Communication: According to records reviewed, the subject property is identified by APNs 067-320-005-000, 067-320-004-000, and 067-320-002-000, and has been owned by Dharma Realm Buddhist Association since 1993. The current buildings were constructed from circa 1947 to 1957 and total approximately 187,115 square feet on a 14.05-acre lot.

Air Pollution Control Agency

Regulatory Agency Data	
Name of Agency:	Yolo-Solano Air Quality Management District (AQMD)
Point of Contact:	Public Records Coordinator
Agency Address:	1947 Galileo Court, Suite 103, Davis, California 95618
Agency Phone Number:	(530) 757-3651
Date of Contact:	January 12, 2024
Method of Communication:	Online Request Form
Summary of Communication: No Permits to Operate (PTO), Notices of Violation (NOV), or Notices to Comply (NTC), or records indicating the presence of AULs, dry cleaning machines, or USTs were on file for the subject property with the AQMD.	

Regional Water Quality Agency

Regulatory Agency Data	
Name of Agency:	California State Water Resource Control Board (SWRCB)
Point of Contact:	https://geotracker.waterboards.ca.gov/
Agency Address:	11020 Sun Center Drive, Suite 200, Rancho Cordova, California 95670
Agency Phone Number:	(916) 464-3291
Date of Contact:	January 11, 2024
Method of Communication:	Online Research
Summary of Communication: No records regarding hazardous substance use, storage, or releases, or the presence of USTs and AULs on the subject property were on file with the SWRCB.	

Department of Toxic Substances Control

Regulatory Agency Data	
Name of Agency:	California Department of Toxic Substances Control (DTSC)
Point of Contact:	https://hwts.dtsc.ca.gov/ https://www.envirostor.dtsc.ca.gov/public/
Agency Address:	8800 Cal Center Drive, Sacramento, California, 95826
Agency Phone Number:	(916) 255-4159
Date of Contact:	January 11, 2024
Method of Communication:	Online Research
Summary of Communication: No records regarding hazardous substance use, storage, or releases, or the presence of USTs and AULs on the subject property were on file with the DTSC.	

Copies of pertinent documents are included in Appendix B of this report.

4.2 Mapped Database Records Search

The regulatory database report provided by ERIS documents the listing of sites identified on federal, state, county, city, and tribal (when applicable) standard source environmental databases within the approximate minimum search distance (AMSD) specified by ASTM Practice E1527-21. The data from these sources are updated as these data are released and integrated into one database. The information contained in this report was compiled from publicly available sources.

The environmental database information is used to identify environmental concerns in connection with the subject property. The listings also serve to identify the known indications of the storage, use, generation, disposal, or release of hazardous substance at the subject property and the potential for contaminants to migrate onto the subject property from off-site sources in groundwater or soil in the form of liquids or vapor.

Using the ASTM definition of migration, Partner considers the migration of hazardous substances or petroleum products in any form onto the subject property during the evaluation of each site listed on the radius report, which includes solid, liquid, and vapor.

4.2.1 Regulatory Database Summary

The following table lists the sites as categorized by the regulatory database within the prescribed AMSD. The locations of the sites are plotted utilizing a geographic information system, which geocodes the site addresses. The accuracy of the geocoded locations is approximately +/-300 feet.

Database Report Data				
Database	**AMSD Radius (mile)**	**Listings Identified**		
		Subject Property	**Adjoining Properties**	**Surrounding Area Sites of Concern**
Federal NPL	1.00	N	N	N
Delisted NPL Site	0.50	N	N	N
Federal SEMS Site	0.50	N	N	N
Federal SEMS-ARCHIVE	0.50	N	N	N
Federal RCRA CORRACTS Facility	1.00	N	N	N
Federal RCRA TSDF Facility	0.50	N	N	N
Federal RCRA Generators Site (LQG, SQG, VSQG, CESQG)	Subject and Adjoining	N	**Y**	N
Federal IC/EC Registries	Subject Property	N	N	N
Federal ERNS Site	Subject Property	N	N	N
State/Tribal Equivalent NPL	1.00	N	N	N
State/Tribal Equivalent CERCLIS	1.00	N	N	N
State/Tribal Landfill/Solid Waste Disposal Site	0.50	N	N	N
State/Tribal Leaking Storage Tank Site (LUST/LPST)	0.50	N	**Y**	N
State/Tribal Registered Storage Tank Sites (UST/AST)	Subject and Adjoining	N	**Y**	N
State/Tribal IC/EC Registries	Subject and Adjoining	N	N	N

Database Report Data				
Database	AMSD Radius (mile)	Listings Identified		
		Subject Property	Adjoining Properties	Surrounding Area Sites of Concern
State/Tribal Voluntary Cleanup Sites (VCP)	0.50	N	**Y**	N
State/Tribal Spills	0.25	N	N	N
Federal Brownfield Sites	0.50	N	N	N
State Brownfield Sites	0.50	**Y**	**Y**	N
Additional Environmental Records	Varies	**Y**	**Y**	N

4.2.2 Subject Property Listings

The subject property is identified in the regulatory database report, as discussed below:

Subject Property Database Listing	
Database:	FED BROWNFIELDS, FINDS/FRS
Site Name:	Dharma Buddhist Temple
Address:	1029 West Capitol Avenue
Substance Involved:	Not applicable
Years of Operation:	2004
Status:	Unknown
Discussion:	The subject property and surrounding properties were included in a regional Brownfield investigation by the City of West Sacramento. A Phase I Assessment of the subject property was completed on September 30, 2004. Cleanup necessity was listed as unknown. No additional information regarding the 2004 assessment was available for review. However, based on the apparent absence of a Phase II recommendation or subsequent subsurface investigations, these listings are not expected to represent an environmental concern to the subject property.

4.2.3 Adjoining Property Listings

The adjoining properties are identified in the regulatory database report, as discussed below:

Adjoining Property Database Listing	
Property Name:	Capitol Travel Inn, Capitol Bowl, Flamingo Hotel, Ramos Triangle, Former Ramos Oil Service Station, Ramco Enterprises/Vacant, West Wood Motel/Silvery Motel, Town House Motel, Crest Motel, Budget Motel, Casa Mobile Plaza 1, Casa Mobile Plaza 2, Center for Spiritual Awareness, River City Apostolic Church
Address:	817, 900, 920, 940, 958, 964, 1020, 1030, 1040, 1101, 1109-1117 West Capitol Avenue; 800, 808-824, 828, 1205 Merkley Avenue
Direction:	North, east, west
Hydrological Gradient:	Up- and down-gradient
Database Listing:	FED BROWNFIELDS, FINDS/FRS

Substance Involved:	Not applicable
Years of Operation:	2004
Status:	Unknown
Discussion:	As previously discussed, the subject property and surrounding area were subject to Brownfields investigations by the City of West Sacramento in 2004. Fifteen adjoining properties to the east, north, and west were included in these investigations. These were likely done as part of redevelopment agency actions. As these listings are associated with the area-wide Brownfields investigation, these listings, in and of themselves, are not expected to represent an environmental concern to the subject property. Some of these adjoining sites are listed on additional databases, as discussed individually below.

Adjoining Property Database Listing	
Property Name:	City of West Sacramento Community Center
Address:	1075 West Capitol Avenue
Direction:	West
Hydrological Gradient:	Down-gradient
Database Listing:	C&D DEBRIS RECY
Substance Involved:	Sharps
Years of Operation:	Not reported
Status:	Unknown
Discussion:	The facility is identified in the C&D DEBRIS RECY database for sharps collection. Based on the nature of reported collected debris, this site is not expected to represent an environmental concern to the subject property.

Adjoining Property Database Listing	
Property Name:	West Capital Hotel, LLC
Address:	1020 West Capitol Avenue
Direction:	North
Hydrological Gradient:	Up-gradient
Database Listing:	RCRA NON GEN
Substance Involved:	Not reported
Years of Operation:	2019
Status:	Unknown
Discussion:	This facility was reported as a verified non-generator of hazardous waste in 2019. Based on the non-generator status and absence of evidence indicating a release, this site is not expected to represent an environmental concern to the subject property.

Adjoining Property Database Listing	
Property Name:	Crest Hotel
Address:	958 West Capitol Avenue
Direction:	North
Hydrological Gradient:	Up-gradient
Database Listing:	RCRA NON GEN
Substance Involved:	Not reported
Years of Operation:	2018
Status:	Unknown
Discussion:	This facility was reported as a verified non-generator of hazardous waste in 2018. Based on the non-generator status and absence of evidence indicating a release, this site is not expected to represent an environmental concern to the subject property.

Adjoining Property Database Listing	
Property Name:	AT&T Mobility-Capitol Bowl, Capitol Entertainment
Address:	900 West Capitol Avenue
Direction:	North
Hydrological Gradient:	Up-gradient
Database Listing:	CERS HAZ, CUPA YOLO
Substance Involved:	Diesel, electrolytes
Status:	Active
Discussion:	This facility is identified as a chemical storage facility. Various violations are reported as returned to compliance within a timely manner. No information regarding cleanup or releases were reported for the facility. Based on the absence of outstanding violations and absence of reported releases, this site is not expected to represent an environmental concern to the subject property.

Adjoining Property Database Listing	
Property Name:	Not reported
Address:	817 West Capitol Avenue
Direction:	Northeast
Hydrological Gradient:	Up-gradient
Database Listing:	HIST CHMIRS
Substance Involved:	Gasoline
Years of Operation:	1990
Status:	Unknown
Discussion:	This site is reported for a release of gasoline occurring on September 15, 1990, due to a mechanical failure from a vehicle. Off-site fire services were called for response. Action taken is reported as removal of hazard. Based on the singular nature of the release and the response actions taken, this site is not expected to represent an environmental concern to the subject property.

Adjoining Property Database Listing	
Property Name:	Verizon Wireless Tower Bridge, AT&T Mobility-West Sacramento, New Cingular Wireless PCS LLC, DBA, Tower Court
Address:	815 West Capitol Avenue
Direction:	East
Hydrological Gradient:	Cross-gradient
Database Listing:	CERS HAZ, VCP, CUPA YOLO, DELISTED HAZ, EMISSIONS, ENVIROSTOR, RCRA NON GEN
Date of Release:	1998
Substance Released:	Lead
Media Impacted:	Soil
Date of Closure:	July 31, 2019
Responsible Party:	Not reported
Status:	Unknown
Discussion:	The facility is identified as a chemical storage facility as well as in the ENVIROSTOR and VCP databases. According to available information, the site was previously occupied by a junk yard and vehicle storage yard prior to 2000. The facility was remediated between 2001 and 2018, removing lead contaminated soil and waste metal from the parcel area. The site was certified by the DTSC as of July 31, 2019. No further information was provided. Based on the reported soil-only impacts, remedial actions taken to remove impacted soil, and the current regulatory status, this site is not expected to represent an environmental concern to the subject property.

Adjoining Property Database Listing	
Property Name:	RAMCON, Former Ramos Oil Service Station, Ramco Property, W Sac City Hall, Proposed, Ramos Oil Intact Station
Address:	1101 West Capitol Avenue
Direction:	West
Hydrological Gradient:	Down-gradient
Database Listing:	UST YOLO, LUST YOLO, LUST, HHSS, HIST TANK FINDS/FRS, DELISTED COUNTY
Date of Release:	January 14, 1999
Substance Released:	Gasoline
Media Impacted:	Soil, groundwater
Date of Closure:	May 3, 1999
Substance Involved:	Gasoline
Status:	Closed
Discussion:	The facility is identified in the LUST database and for historical USTs. According to available information the site historically operated with two former gasoline stations, operating from 1954, razed in 1968, and operating with a second gasoline station in 1971. Tanks from the second station were reported as removed in 1987. Due to lack of information regarding removal of the tanks, an investigation began identifying impacts to soil from hydrocarbons as gasoline (TPHg), benzene, and methyl tert-butyl ether (MTBE) concentrated in the historical location of the dispenser islands. Groundwater

	investigations identified impacts from TPHg and benzene. In August of 1998, 1,250 tons of soil was excavated from the site. Additionally 35,000-gallons of water that entered the soil excavation pit was also removed. No further action was granted to the site in a letter dated May 3, 1999. Based on the UST removal, remedial actions taken, current regulatory status, and inferred direction of groundwater flow, this site is not expected to represent an environmental concern to the subject property.

Adjoining Property Database Listing	
Property Name:	Sunshine Laundry and Cleaners
Address:	820 Merkley Avenue
Direction:	West
Hydrological Gradient:	Down-gradient
Database Listing:	CALSITES, ENVIROSTOR
Substance Involved:	Not applicable
Years of Operation:	Ceased operation in 1981
Status:	Closed
Discussion:	The facility is identified in the ENVIROSTOR database for historical uses as a drycleaner. According to investigations done by the EPA the facility was a drop-off only facility and the site was listed as no further action in the CALSITES database. According to information the site was investigated as part of the prior gasoline station operations discussed above and only petroleum impacts were identified during a Phase I and Phase II at the site. Based on the reported nature of the former operations as a laundry drop off facility, the reported absence of dry cleaning solvent impacts, and the inferred direction of groundwater flow, this site is not expected to represent an environmental concern to the subject property.

Based on the findings, vapor migration from the adjoining properties is not considered an environmental concern at this time.

4.2.4 Surrounding Area Listings of Concern to Subject Property

No surrounding area listings of concern to the subject property are identified in the regulatory database report. Based on various mitigating factors including relative distance from the subject property, inferred direction of groundwater flow, media affected, and/or regulatory status, the remaining sites listed within the specified search radius of the subject property which appeared on local, State, or Federally published databases that report releases of hazardous substances, are not expected to represent an environmental concern.

Based on the findings, vapor migration from the surrounding properties is not considered an environmental concern at this time.

4.2.5 Unplottable Listings

No unplottable listings of concern to the subject property are identified in the regulatory database report.

A copy of the regulatory database report is included in Appendix C of this report.

5.0 USER PROVIDED INFORMATION AND INTERVIEWS

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the *Brownfields Amendments*), the *User* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. The *User* should provide the following information to the *environmental professional*. Failure to provide this information could result in a determination that *all appropriate inquiries* is not complete. The *User* is asked to provide information or knowledge of the following:

- Review Title and Judicial Records for Environmental Liens and AULs
- Specialized Knowledge or Experience of the User
- Actual Knowledge of the User
- Reason for Significantly Lower Purchase Price
- Commonly Known or *Reasonably Ascertainable* information
- Degree of Obviousness
- Reason for Preparation of this Phase I ESA

Fulfillment of these user responsibilities is key to qualification for the identified defenses to CERCLA liability. Partner requested our Client to provide information to satisfy User Responsibilities as identified in Section 6 of the ASTM guidance.

Pursuant to ASTM Practice E1527-21, Partner requested the following site information from CDA+PDG, Inc. (User of this report).

User Responsibilities		
Item	**Provided By User**	**Not Provided By User**
AAI User Questionnaire	**X**	
Title Records, Environmental Liens, and AULs		**X**
Specialized Knowledge	**X**	
Actual Knowledge	**X**	
Valuation Reduction for Environmental Issues	**X**	
Identification of Key Site Manager	**X**	
Reason for Performing Phase 1 ESA	**X**	
Prior Environmental Reports		**X**
Other	**X**	

5.1 Interviews

5.1.1 Interview with Owner

The owner of the subject property since 1993, identified as Dharma Realm Buddhist Association, was not available to be interviewed at the time of the assessment.

5.1.2 Interview with Report User

Please refer to Section 5.2 below for information requested from the Report User.

5.1.3 Interview with Key Site Manager

Ms. Jin Kee, key site manager, indicated that they had no information pertaining to any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property; any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property; or any notices from a governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.

The key site manager stated that the subject property was developed in the 1930s for use as a hotel. Dharma Realm purchased the subject property in 1993 for the Dharma Realm Buddhist Association and converted the site to the current use. The key site manager further stated that there are no USTs, ASTs, clarifiers, oil/water separators, groundwater monitoring wells, or hazardous substance use/storage/generation on the subject property to the best of their knowledge.

5.1.4 Interviews with Past Owners, Operators, and Occupants

Interviews with past owners, operators, and occupants were not reasonably ascertainable and thus constitute a data gap.

5.2 User Provided Information

5.2.1 Title Records, Environmental Liens, and AULs

Partner was not provided with title records or environmental lien and AUL information for review as part of this assessment.

5.2.2 Specialized Knowledge

The User did not have specialized knowledge of environmental conditions associated with the subject property at the time of the assessment.

5.2.3 Actual Knowledge of the User

The User was not aware of environmental liens and/or AULs encumbering the subject property or in connection with the subject property at the time of the assessment.

5.2.4 Valuation Reduction for Environmental Issues

The User was not aware of any reductions in property value due to environmental issues.

5.2.5 Commonly Known or Reasonably Ascertainable Information

The User did not provide information that is commonly known or reasonably ascertainable within the local community about the subject property at the time of the assessment.

5.2.6 Previous Reports and Other Provided Documentation

A site plan and proposed development plans were provided for review. Information from these documents have been incorporated into pertinent Sections of this report. No other previous reports or other pertinent documentation was provided to Partner for review during the course of this assessment.

6.0 SITE RECONNAISSANCE

The weather at the time of the site visit was sunny and clear. Refer to Section 1.5 for limitations encountered during the site reconnaissance and Sections 2.1 and 2.2 for subject property operations. The table below provides the site assessment details:

Site Assessment Data	
Site Assessment Performed By:	Alexandria Miranda
Site Assessment Conducted On:	January 15, 2024

The table below provides the subject property personnel interviewed during the site reconnaissance:

Site Visit Personnel for the Subject Property			
Name	**Title/Role**	**Contact Number**	**Site Walk* Yes/No**
Jin Ke	Religious Leader	N/A	Yes
Tammy Wu, MD	Key Site Manager	(209) 604-7239	No
** Accompanied Partner during the site reconnaissance activities and provided information pertaining to the current operations and maintenance of the subject property*			

No potential environmental concerns were identified during the site reconnaissance.

6.1 General Site Characteristics

6.1.1 Solid Waste Disposal

Solid waste generated at the subject property is disposed of in commercial dumpsters located throughout the subject property. An independent solid waste disposal contractor, Waste Management, removes solid waste from the subject property. No evidence of illegal dumping of solid waste was observed during the site reconnaissance.

6.1.2 Sewage Discharge and Disposal

Sanitary discharges on the subject property are reportedly directed into the municipal sanitary sewer system. The City of West Sacramento services the subject property vicinity. No wastewater treatment facilities or septic systems were observed or reported on the subject property.

6.1.3 Stormwater and Surface Water Drainage

Stormwater is removed from the subject property primarily by sheet flow action across the paved surfaces towards stormwater drains located throughout on the property and in the public right-of-way. On-site stormwater drains discharge to municipal owned and maintained storm sewer system. No drywells were identified on the subject property.

6.1.4 Source of Heating and Cooling

Heating and cooling systems as well as domestic hot water equipment are fueled by electricity and natural gas provided by Pacific Gas & Electric (PG&E) Company. The mechanical system is comprised of roof-mounted, packaged, heating, ventilation, air conditioning (HVAC) units with wall mounted units within residential rooms. Hot water is provided by central natural gas water heaters.

6.1.5 Wells and Cisterns

Partner observed one groundwater monitoring well on the southern portion of the subject property. Site personnel were unaware of the presence of this monitoring well at the subject property. No information was provided regarding the ownership or purpose of the well. Additional review into nearby release sites did not identify the purpose of the well and the well does not appear to be associated with off-site release cases. According to the escorts the well has not been sampled since Dharma Realm acquired the property in 1993, as no access has been granted by outside entities to do so. The purpose of the well is unknown. Because the monitoring well can act as a direct conduit to the subsurface, if not intended for future use, it should be abandoned/destroyed in accordance with applicable regulations.

6.1.6 Wastewater

Domestic wastewater generated at the subject property is disposed by means of the sanitary sewer system. No industrial wastewater streams were identified at the subject property.

6.1.7 Septic Systems

No septic systems were observed or reported on the subject property.

6.1.8 Additional Site Observations

No additional general site characteristics were observed during the site reconnaissance.

6.2 Potential Environmental Hazards

6.2.1 Hazardous Substances and Petroleum Products Used or Stored at the Site

No evidence of the use of reportable quantities of hazardous substances was observed on the subject property. Small quantities of general maintenance supplies appeared to be properly labeled and stored at the time of the assessment with no signs of leaks, stains, or spills. The storage and use of maintenance supplies does not appear to pose a threat to the environmental condition of the subject property at this time.

6.2.2 Aboveground & Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)

No evidence of current or former ASTs or USTs was observed during the site reconnaissance.

6.2.3 Evidence of Releases

No spills, stains, or other indications that a surficial release has occurred at the subject property were observed.

6.2.4 Polychlorinated Biphenyls (PCBs)

Older transformers and other electrical equipment could contain PCBs at a level that subjects them to regulation by the U.S. EPA. PCBs in electrical equipment are controlled by United States Environmental Protection Agency regulations 40 CFR, Part 761. Under the regulations, there are three categories into which electrical equipment can be classified: 1) Less than 50 parts per million (ppm) of PCBs – “Non-PCB;” 2) 50 ppm-500 ppm – “PCB-Contaminated;” and, 3) Greater than 500 ppm – “PCB-Containing.” The manufacture, process, or distribution in commerce or use of any PCB in any manner other than in a totally enclosed manner was prohibited after July 2, 1979.

Transformers and Hydraulic Equipment				
Type of Equipment	**Location**	**Number**	**PCB Containing**	**Concern**
Pad-Mounted Transformers	To the West exterior, central, and southern portions	Four	Unknown	No
Pole-Mounted Transformers	South	Three	Unknown	No

The site reconnaissance addressed indoor and outdoor transformers that may contain PCBs. Seven pad-mounted transformers and pole-mounted transformers were observed on the subject property. The transformers are not labeled indicating PCB content. No staining or leakage was observed in the vicinity of the transformers. PG&E maintains ownership and operational responsibility for the transformers. Based on the good condition of the equipment, the transformers are not considered an environmental concern.

No other potential PCB-containing equipment (interior transformers, oil-filled switches, hoists, lifts, dock levelers, hydraulic elevators, balers, etc.) was observed on the subject property during the site reconnaissance.

6.2.5 Strong, Pungent, or Noxious Odors

No strong, pungent, or noxious odors were evident during the site reconnaissance.

6.2.6 Pools of Liquid

No pools of liquid were observed on the subject property during the site reconnaissance.

6.2.7 Drains, Sumps, and Clarifiers

Partner observed the following drains, sumps, and/or clarifiers located on the subject property:

Drains, Sumps, and Clarifiers Observed On-site				
Drain/Sump/Clarifier	**Number Observed**	**Location**	**Point of Discharge**	**Sealed/Bermed**
Interceptor	One	East of main building	Sewer	N/A

One grease interceptor was observed to the east of the main building and commercial kitchen. According to site personnel, the interceptor is not utilized due to the strict prepared vegan diets. As such the interceptor has not been serviced since occupancy of the Dharma Realm Buddhist Association. Because the system has never been used and considering the intended nature of inputs (non-hazardous food-grade grease), the grease interceptor is not considered an environmental concern.

6.2.8 Pits, Ponds, and Lagoons

No pits, ponds, or lagoons were observed on the subject property.

6.2.9 Stressed Vegetation

No stressed vegetation was observed on the subject property.

6.2.10 Additional Potential Environmental Hazards

No additional environmental hazards, including landfill activities or radiological hazards, were observed.

6.3 Non-ASTM Services

6.3.1 Asbestos-Containing Materials (ACMs)

Asbestos is the name given to a number of naturally occurring, fibrous silicate minerals mined for their useful properties such as thermal insulation, chemical and thermal stability, and high tensile strength. The Occupational Safety and Health Administration (OSHA) regulation 29 CFR 1926.1101 requires certain construction materials to be presumed to contain asbestos, for purposes of this regulation. All thermal system insulation (TSI), surfacing material, and asphalt/vinyl flooring that are present in a building that have not been appropriately tested are "presumed asbestos-containing material" (PACM).

The subject property buildings were constructed in the 1940s and 1950s. Partner has conducted a limited, visual evaluation of accessible areas for the presence of suspect ACM at the subject property. The objective of this visual survey was to note the presence and condition of suspect ACM observed. Please refer to the table below for identified suspect ACM:

Suspect ACMs			
Suspect ACM	**Location**	**Friable Yes/No**	**Physical Condition**
Drywall Systems	Building Interiors	No	Fair
Floor Tile Mastic	Building Interiors	No	Good
Floor Tiles	Building Interiors	No	Fair
Stucco	Building Interiors	Yes	Good
Spray-Applied Acoustical Material	Building Interiors	Yes	Good
Roofing Materials	Building Roofs	No	Not Assessed

Various areas were observed to be broken or damaged within drywall systems, ceiling systems, and floor systems. Areas were noted as in disrepair due to age and poor upkeep. Most areas identified to be damaged are reported as not in use and or awaiting repair.

Based on this building's date of construction, prior to disturbance, Partner recommends a comprehensive asbestos survey of the property be completed to determine the presence, condition, friability and likely future condition of suspect or confirmed ACM. All suspect materials must be handled as ACM according to local, state and federal regulations until the results of sampling and analysis indicate the material is a non-ACM.

6.3.2 Lead-Based Paint (LBP)

Lead is a highly toxic metal that affects virtually every system of the body. LBP is defined as any paint, varnish, stain, or other applied coating that has 1 mg/cm2 (or 5,000 µg/g or 0.5% by weight) or more of lead. Congress passed the Residential Lead-Based Paint Hazard Reduction Act of 1992, also known as "Title X," to protect families from exposure to lead from paint, dust, and soil. Under Section 1017 of Title X, intact LBP on most walls and ceilings is not considered a "hazard," although the condition of the paint should be monitored and maintained to ensure that it does not become deteriorated. Further, Section 1018 of this law directed the Housing and Urban Development (HUD) and the US EPA to require the disclosure of known information on LBP and LBP hazards before the sale or lease of most housing built before 1978.

Based on the age of the subject property buildings (pre-1978), there is a potential that LBP is present. Various areas were observed to be in disrepair or chipped due to age. Actual material samples would need to be collected in order to determine if LBP is present.

6.3.3 Radon

Radon is a colorless, odorless, naturally occurring, radioactive, inert, gaseous element formed by radioactive decay of radium (Ra) atoms. The US EPA has prepared a map to assist National, State, and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three Radon Zones, according to the table below:

EPA Radon Zones		
EPA Zones	**Average Predicted Radon Levels**	**Potential**
Zone 1	Exceed 4.0 pCi/L	Highest
Zone 2	Between 2.0 and 4.0 pCi/L	Moderate
Zone 3	Less than 2.0 pCi/L	Low

It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the US EPA recommends site-specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures.

Review of the US EPA Map of Radon Zones places the subject property in Zone 3. Based upon the radon zone classification, radon is not considered an environmental concern.

6.3.4 Lead in Drinking Water

According to available information, a public water system operated by the WSPWD serves the subject property vicinity. According to the 2023 Annual Water Quality Report, water supplied by the WSPWD is in compliance with State and Federal regulations pertaining to drinking water standards, including lead and copper. Water sampling was not conducted to verify water quality.

6.3.5 Mold

Molds are microscopic organisms found virtually everywhere, indoors and outdoors. Mold will grow and multiply under the right conditions, needing only sufficient moisture (e.g.in the form of very high humidity, condensation, or water from a leaking pipe, etc.) and organic material (e.g., ceiling tile, drywall, paper, or natural fiber carpet padding).

No obvious indications of water damage or mold growth were observed during Partner's visual assessment.

6.3.6 Wetlands

The subject property does not appear to be a designated wetland area based on information obtained from the United States Fish and Wildlife Service; however, a comprehensive wetlands survey would be required in order to formally determine actual wetlands on the subject property. No settling ponds, lagoons, surface impoundments, wetlands, or natural catch basins were observed at the subject property during this assessment.

6.4 Adjoining Property Reconnaissance

The adjoining property reconnaissance consisted of observing the adjoining properties from the subject property premises.

6.4.1 Hazardous Substances and Petroleum Products Used or Stored at the Site

No hazardous substances or petroleum products were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.2 ASTs/USTs for Hazardous Substances or Petroleum Products

No ASTs or USTs for hazardous substances/petroleum products were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.3 Evidence of Releases

No evidence of a release was observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.4 PCBs

No PCB containing materials were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.5 Strong, Pungent, or Noxious Odors

No strong, pungent, or noxious odors were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.6 Pools of Liquid

No pools of liquid were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.7 Drains, Sumps, and Clarifiers

No drains, sumps, or clarifiers were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.8 Pits, Ponds, and Lagoons

No pits, ponds, or lagoons were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.9 Stressed Vegetation

No stressed vegetation was observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.10 Additional Potential Environmental Hazards

No additional environmental hazards were observed on adjoining properties during the limited adjoining property reconnaissance.

7.0 VAPOR ENCROACHMENT CONDITIONS

Partner conducted a limited non-intrusive vapor screening on the subject property to identify, to the extent feasible, the potential for vapor encroachment conditions (VECs) in connection with the subject property. This included consideration of chemicals of concern (COC) that may migrate as vapors into the subsurface of the subject property as a result of contaminated soil and groundwater on or near the property.

This screening utilized readily available data sources previously discussed in this Phase I ESA that includes:

- the physical setting of the subject property (Section 2.4),
- standard historical sources for the subject property, adjoining, and surrounding area (Section 3.0),
- known or potentially contaminated sites as identified from information from regulatory agencies and sites on Federal, State, tribal and local databases (Section 4.0), and
- information from the site reconnaissance (Section 6.0) of the subject property and observations of the surrounding properties.

The results of our data collection, reconnaissance, and analysis are tabulated below:

Potential for Vapor Encroachment to Impact the Subject Property	
Area of Concern	***Likely or Known VEC to Subject Property***
Subject Property Existing Operations or Conditions (Sections 2.0 and 6.0)	None identified that impact the subject property.
Historical Uses of the Subject Property (Section 3.0)	None identified that impact the subject property.
Adjoining Property Operations or Existing Conditions (Sections 2.3 and 6.4)	None identified that impact the subject property.
Historical Uses of Adjoining Properties or Nearby Properties (Section 3.0)	None identified that impact the subject property.
Regulatory Review of sites identified on Federal, State, tribal and Local Environmental Databases which were located in the AMSD (Section 4.0)	None identified that impact the subject property.

Based on the findings of the limited non-intrusive vapor screening, vapor intrusion is unlikely to be an issue of concern at the subject property. As such, no further assessment is recommended.

8.0 FINDINGS AND CONCLUSIONS

Findings and Opinions

Recognized Environmental Condition

A REC refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

- Partner did not identify evidence of RECs during the course of this assessment.

Controlled Recognized Environmental Condition

A CREC refers to a REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify evidence of CRECs during the course of this assessment.

Historical Recognized Environmental Condition

A HREC refers to a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify evidence of HRECs during the course of this assessment.

Business Environmental Risk

A BER is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice. The following was identified during the course of this assessment:

- During the site reconnaissance, Partner observed one groundwater monitoring well on the southern portion of the subject property. Site personnel were unaware of the presence of this monitoring well at the subject property. No information was provided regarding the ownership or purpose of the well. Additional review into nearby release sites did not identify the purpose of the well and the well does not appear to be associated with off-site release cases. According to the escorts the well has not been sampled since Dharma Realm acquired the property in 1993, as no access has been granted by outside entities to do so. The purpose of the well is unknown. Because the monitoring well can act as a direct conduit to the subsurface, if not intended for future use, it should be abandoned/destroyed in accordance with applicable regulations.
- Due to the age of the subject property buildings, there is a potential that ACMs and/or LBP are present. A few areas of the building materials, however, were noted during the assessment to be broken, chipped, and/or have signs of disrepair. Should these materials be replaced, the identified suspect ACMs would need to be sampled to confirm the presence or absence of asbestos prior to any renovation or demolition activities to prevent potential exposure to workers and/or building occupants.

Significant Data Gaps

No significant data gaps affecting the ability of the Environmental Professional to identify a REC were encountered during this assessment.

Conclusions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of the property located at 1029 West Capitol Avenue in West Sacramento, Yolo County, California (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of RECs, CRECs, or HRECs in connection with the subject property; however, evidence of BERs was identified. Based on the conclusions of this assessment, Partner recommends the following:

- If not intended for future use, the on-site monitoring well should be abandoned/destroyed in accordance with applicable regulations.
- An Operations and Maintenance (O&M) Program should be implemented in order to safely manage the suspect ACMs and LBP located at the subject property.

9.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Partner has performed a Phase I Environmental Site Assessment of the property located at 1029 West Capitol Avenue in West Sacramento, Yolo County, California in conformance with the scope and limitations of the protocol and the limitations stated earlier in this report. Exceptions to or deletions from this protocol are discussed earlier in this report.

By signing below, Partner declares that, to the best of our professional knowledge and belief, we meet the definition of *Environmental Professional* as defined in §312.10 of 40 CFR §312. Partner has the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject *property*. Partner has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

RE: CITY DIRECTORY RESEARCH
1029 West Capitol Avenue
WEST SACRAMENTO,CA 95691

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:
800-1400 of Merkley Ave
800-1350 of W Capitol Ave

MONITORING WELL PERMIT CONDITIONS

Permit #: 18-0088 FA #: FA1700 WP#: 5807

Facility Name/Location: City of Dharma Realm, 1029 W. Capitol Ave, West Sac.

Description of work: Three geotechnical borings 1x50' + 2x25'

This permit expires 365 days from date of issue.

☐ **Well Installation:** Sanitary seal inspection required*
- ☐ Tremie Placement Required. ☐ Neat Cement Slurry Required.
- ☐ Concrete Pad (Min 2 X 2 Feet) Required For Installations Not Into Paved Surfaces

☒ **Soil Boring/ Hydropunch/ Cone Penetrometer/ Borehole:** Destruction inspection required*
- ☒ Tremie Placement Required. ☒ Neat Cement Slurry Required.

☐ **Well Destruction:** Destruction inspection required*
- ☐ Tremie Placement Required. ☐ Neat Cement Slurry Required.
- ☐ Pressure Grout Placement. ☐ Over Drill and Remove Casing

Note: **Neat Cement Slurry** is at least one 94 pound bag Portland Cement to 4.5 to 6.5 gallons of water. Bentonite may be added, but only between 3% and 5% by weight of the dry materials.

☒ **DRILL CUTTINGS AND PURGE WATER STORAGE:** Potentially hazardous waste to be appropriately labeled and stored per CCR Title 22 and DOT requirements and properly secured until analytical results determine appropriate disposal options.

☒ **HAZARDOUS WASTE DISPOSAL:** Drill cuttings, purge water or other materials found to meet hazardous waste criteria must be disposed of as hazardous waste within 90 days of generation. Other contaminated wastes must be disposed of as approved by Yolo County Environmental Health. Non-contaminated waste must be disposed of as solid waste.

☒ **REPORTING REQUIREMENTS:**
- ☒ Provide as-built site map of installation/destruction required.
- ☒ Report of installation, sampling, and analytical finding required within 60-days of drilling.

☒ **Other** <u>You are required to give at least 48 hours notice prior to grout inspection.</u>

CALL (530) 666-8646 TO SCHEDULE INSPECTIONS

General Conditions

All monitoring wells, soil borings, hydropunches, or other penetrations to groundwater require an inspection for the placement of the sanitary seal (grout seal) for the annular space or to abandon the well or borehole.

How to Schedule an Inspection

Schedule an inspection with a Hazmat Specialist at least 2 working days prior to drilling by calling (530) 666-8646 or by email to environmental.health@yolocounty.org. If you know the specialist who issued the permit or is the primary contact for the site, please direct your call or e-mail to that specialist. Please refer to the Permit Number which is in the box at the top left-hand corner of the permit application.

Inspection Times

The permit fee includes up to one hour of travel/ field inspection per well or boring. Excess time is billed at an hourly rate that has been approved and adopted by the County Board of Supervisors. Please call the department at (530) 666-8646 for the current rate. Inspections are scheduled between 9:00 AM and 4:00 PM Monday through Friday except holidays. Inspections can not be scheduled outside these hours.

Stormwater Quality Control

Drilling activities in the unincorporated County must comply with Yolo County Code Title 10, Chapter 9 "Stormwater Management and Discharge Control". Access to the drilling site and drilling activities shall include good housekeeping practices to prevent the discharge of pollutants directly or indirectly into stormwater conveyance systems, receiving waters, or natural surface waters. Examples of good housekeeping practices can be found at: http://www.yolocounty.org/Index.aspx?page=406 . Pollutants include but are not limited to drilling fluids, sediment, vehicle track-out, spillage, and concrete washout. Failure to implement good housekeeping practices could result in fines and reporting to the State Regional Water Quality Control Board.

Locations within County Road Right-of-Way

Any work impacting a County road requires a County encroachment permit. Road closures, traffic control, constructing or abandoning a well within County right of way, or the discharge of any drilling fluids to County ditches, are examples of activities requiring a County encroachment permit.

Apply for Permits or for Information:
Yolo County
Community Services Department, Division of Public Works
292 West Beamer Street
Woodland CA 95695
Phone: (530) 666-8775

Application form: http://www.yolocounty.org/Index.aspx?page=920

Locations within the City of Davis:

All wells (except monitoring wells) require a permit for construction or destruction. Wells (including monitoring wells) constructed or to be destroyed within a City Right of Way require an encroachment permit.

YOLO COUNTY
PERMIT

Type of Permit	SPECIAL EVENT-LESS THAN 3 DAYS	PERMIT NUMBER	F9000
Name of Business	DHARMA REALM BUDDIST ASSOCIATION	Issued	10/04/03
Owner of Business	VENERABLE MASTER HSUAN	Valid Through	10/4/2003
Business Location	1029 W CAPITOL AVE WEST SACRAMENTO, CA 95691		

This permit is issued pursuant to the Yolo County Code and applicable State of California regulations and laws. This permit is valid through the date indicated above unless previously suspended or revoked. The Yolo County Health Officer may revoke or suspend this permit to operate the business listed above for any violation of any code or law. The owner or operator is required to notify Yolo County Environmental Health Service of any change in equipment, operations, or modifications. Any modifications, change in equipment or operation is subject to prior approval by Environmental Health Services. Unapproved changes may be nullified or subject to corrective actions. This permit is not transferable and is valid only to the owner listed above. New owners must apply and pay for a new permit prior to beginning operation.

Permits issued are subject to any permit conditions at the time of permit issuance or thereafter. Permit conditions, if any, are incorporated into this permit by reference. For permits to operate underground storage tanks there is a permit condition form for each tank.

Food facilities, public water systems, septic systems, public recreational facilities (pools, spas, saunas), and body art facilities are required to obtain permits from Yolo County Environmental Health. If the answer to any of the following questions is "Yes", you may be required to obtain a permit. Please call YCEH at (530) 666-8646 if you have questions or need to obtain a permit.

Q# 1. Will your facility store, prepare, package, serve, vend or otherwise provide food for human consumption at the retail level?
YES_____ NO X

Q#. 2. Will your facility use a private well for your drinking water source?
YES_____ NO X

Q# 3. Will your facility use a septic system or produce wastewater?
YES_____ NO X

Q# 4. Will your facility have a public pool or spa? (A public pool includes but is not limited to pools located at hotels, motels, apartment buildings, homeowners associations, schools, health clubs, etc.)
YES_____ NO X

Q# 5. Will your facility offer tattooing, body piercing, or permanent cosmetics?
YES_____ NO X

A hazardous material is a chemical that is flammable, corrosive, reactive, or toxic. Compressed inert gases are also considered hazardous because of the danger of the container rupturing and becoming a projectile. A hazardous waste is a hazardous material that facility personnel have decided is no longer useful. If you are not sure if what you have is classified as a hazardous material, refer to the appropriate MSDS or contact Yolo County Environmental Health Division at (530) 666-8646 to find out.

If the answer to any of the following questions is "Yes", you may be required by State law to submit a Hazardous Materials Business Plan to Yolo County. Failure to comply with this requirement could result in fines/penalties of up to $2,000.00 per day. The Hazardous Materials Business Plan forms can be obtained from Yolo County Environmental Health Department (YCEH) by calling (530) 666-8646 or by downloading from our website at http://www.yolocounty.org/Index.aspx?page=112.

Q# 1. Does your facility repair or maintain motor vehicles or motorized equipment?
YES_____ NO__X__
If yes, does your facility handle motor oil?
YES_____ NO__X__
Does your facility handle antifreeze/coolant?
YES_____ NO__X__
Does your facility handle grease?
YES_____ NO__X__
Does your facility handle gasoline or diesel?
YES_____ NO__X__

Q# 2. Does your facility sell motor vehicle fuel?
YES_____ NO__X__
If yes, does your facility have an underground storage tank (UST)?
YES_____ NO__X__

Q# 3. Does your facility have an above ground tank (AST)?
YES_____ NO__X__
Q# 4. Does your facility engage in welding operations?
YES_____ NO__X__
If yes, does your facility store more than one cylinder of acetylene, oxygen, shielding or other welding gas?
YES_____ NO__X__

Q# 5. Does your facility operate forklifts?
YES_____ NO__X__
If yes, does your facility store more than one extra cylinder of propane?
YES_____ NO__X__
Does your facility store extra forklift batteries with 500 pounds of lead of 55-gallons of acid?
YES_____ NO__X__

Q# 6. Does your facility handle any other hazardous materials not listed in quantities greater than 500 pounds, 55-gallons, or 200 cubic feet of any kind of compressed gas including air?
YES_____ NO__X__

Q# 7. Does your facility engage in photography?
YES_____ NO__X__
If yes, does your facility generate photographic waste fluids?
YES_____ NO__X__

Q# 8. Does your facility generate dental amalgam or x-ray processing waste fluid?
YES_____ NO__X__

Q# 9. Does your facility generate any quantity of any other hazardous waste?
YES_____ NO__X__

Q# 10. Does your facility handle yard trimmings, untreated wood wastes, natural fiber products, or construction and demolition wood waste?
YES_____ NO__X__
If yes, are these materials managed in a way which would allow them to reach 122 degrees Fahrenheit?
YES_____ NO__X__

Land Use Documents Which Are of General Interest to YCEH

All Use Permits, Site Plans, EIR's, Neg Dec's, Initial Studies, and Building Permits are of interest to Yolo County Environmental Health (YCEH), because of the possibility of contamination in soil or ground water.

All pre-building permit Plan Checks for Public swimming pools, hot tubs, restaurants, and tattoo facilities are of interest to YCEH. Any land use document which involves drinking water wells or septic systems are also an interest.

YCEH would like to see Business Licenses for the following types of business:

Automotive or truck repair or service facilities
Above ground storage tanks (AST) facilities
Biodiesel manufacturing facilities
Communication towers
Dental offices
Farms
Food preparation facilities
Hardware stores
Laboratories
Medical clinics
Photographic film processing facilities
Print shops
Public swimming pool or hot tub facilities
"Sensitive" businesses such as preschools and nursing homes
Storage facilities
Swimming pool supply stores or cleaning services
Tattooing or body piercing facilities
Underground storage tanks (UST) facilities
Warehouses
Wineries and vineyards

Yolo-Solano Air Quality Management District

1947 Galileo Ct., Suite 103
Davis, CA 95618
PHONE - (530) 757-3650; (800) 287-3650 FAX- (530) 757-3670

A Building Permit or Business License cannot be issued unless all requirements of the YOLO-SOLANO Air Quality Management District are met. If you answered YES to questions 6 or 7 you MUST conduct an asbestos survey.

Q# 1. Description of work being done (building permit) or Nature of Business (business license):
Put in Commercial kitchen

Q# 2. Will your activity involve the demolition of a load bearing wall or structural member?

YES_____ NO X

*If you answered YES then you must conduct an asbestos survey **and** submit the results with an Asbestos Demolition/Renovation Form to the Yolo-Solano AQMD.

Q# 3. Is your activity a renovation, remodel or tenant improvement of an existing structure?

YES X NO_____

*If you answered YES then you must conduct an asbestos survey **and** submit the results to the Yolo-Solano AQMD for approval.

Q# 4. Is a copy of the asbestos survey attached?

YES_____ NO X

Q# 5. Does the business use, process or have equipment or products, which emit emissions or would otherwise require a permit from the Yolo-Solano AQMD? (See attached list for potential permitted processes)

YES_____ NO X

If YES, have you submitted an application for a permit?

YES_____ NO_____

Q# 6. Does your facility have any current permit(s) with the Yolo-Solano AQMD?

YES_____ NO X

I, the undersigned, certify under penalty of perjury that the above information is true and correct.

State of California

Franchise Tax Board

March 11, 1959

The Buddhist Lecture Hall, Inc.
820 Clay Street
San Francisco, California

Gentlemen:

Re: Exemption from Franchise Tax

It is the opinion of this office, based upon the evidence presented, that you are exempt from State franchise tax under the provisions of Section 23701d of the Revenue and Taxation Code, as it is shown that you are organized and operated exclusively as a religious organization.

Accordingly, you will not be required to file franchise tax returns unless you change the character of your organization, the purposes for which you were organized, or your method of operation. You are required to report any such changes immediately so that their effect on your exempt status may be determined.

Contributions made to you are deductible by the donors in arriving at their taxable net income in the manner and to the extent provided by Sections 17214, 17215, 17216 and 24357 of the Revenue and Taxation Code.

If your organization is not yet incorporated and has not yet qualified to do business in California, this approval will expire unless incorporation or qualification is completed within thirty days.

Very truly yours,

FRANCHISE TAX BOARD
John J. Campbell
Executive Officer

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:20,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Yolo County, California
Survey Area Data: Version 21, Sep 12, 2023

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Apr 23, 2022—Apr 24, 2022

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Whether you are in a high risk zone or not, you may need flood insurance because most homeowners insurance doesn't cover flood damage. If you live in an area with low or moderate flood risk, you are 5 times more likely to experience flood than a fire in your home over the next 30 years. For many, a National Flood Insurance Program's flood insurance policy could cost less than $400 per year. Call your insurance agent today and protect what you've built.

Learn more about steps you can take to reduce flood risk damage.

14. Oil/Gas/Water/Monitoring Wells	☐ Yes x No	
15. Environmental Permits	☐ Yes x No	

PHASE I ENVIRONMENTAL SITE ASSESSMENT QUESTIONNAIRE

The following questionnaire is required by the ASTM Standard E1527-13 and E1527-21, which adheres to the All Appropriate Inquiries (AAI) Rule (United States Environmental Protection Agency) (40 CFR 312).

As defined by ASTM, the User of the report is the *"party seeking to use Practice E1527 to complete an environmental site assessment of the property. A user may include, without limitation, a potential purchaser of property, a potential tenant of property, an owner of property, a lender, or a property manager. The user has specific obligations for completing a successful application of this practice."*

PROPERTY ADDRESS:	1029 W. Capitol Ave.
PROPERTY CITY, STATE ZIP:	West Sacramento, CA 95691

1. **Environmental liens that are filed or recorded against the property (40 CFR 312.25)**

   Did a search of land title records (or judicial records) identify any environmental liens filed or recorded against the subject property under federal, tribal, state or local law?

   [ ] YES [x] NO

2. **Activity and use limitations (AULs) that are in place on the subject property or that have been filed or recorded against the subject property (40 CFR 312.26(a)(1)(v) and (vi))**

   Did a search of land title records (or judicial records) identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the subject property and/or have been filed or recorded against the subject property under federal, tribal, state or local law?

   [ ] YES [x] NO

3. **Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28)**

   Do you have any specialized knowledge or experience related to the subject property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the subject property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

   [ ] YES [x] NO

4. Relationship of the purchase price to the fair market value of the subject property if it were not contaminated (40 CFR 312.29)

Does the purchase price being paid for this subject property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the subject property?

[ ] YES [ ] NO n/a

---

5. Commonly known or reasonably ascertainable information about the Property (40 CFR 312.30)

Are you aware of commonly known or reasonably ascertainable information about the subject property that would help the environmental professional to identify conditions indicative of releases or threatened releases?

[ ] YES [x] NO

---

a. Do you know the past uses of the subject property?

[x] YES [ ] NO

---

b. Do you know of specific chemicals that are present or once were present at the subject property?

[ ] YES [x] NO

---

c. Do you know of spills or other chemical releases that have taken place at the subject property?

[ ] YES [x] NO

---

d. Do you know of any environmental cleanups that have taken place at the subject property?

[ ] YES [x] NO

---

e. Do you have any prior knowledge that the subject property was developed as a gas station, drycleaner, manufacturing/industrial facility in the past?

[ ] YES [x] NO

---

f. Are you aware of historical use of hazardous materials or petroleum products used or present on the subject property?

[ ] YES [x] NO

---

g. Do you know if the property is currently or was formerly equipped with underground storage tanks (USTs) or septic tanks?

[ ] YES [x] NO

h. Do you know of any past, threatened or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substance or petroleum products involving the property by any owner or occupant of the subject property?

[ ] YES [x] NO

6. The degree of obviousness of the presence or likely presence of contamination at the subject property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31)

Based on your knowledge and experience related to the subject property, are there any obvious indicators that point to the presence or likely presence of releases at the subject property?

[ ] YES [x] NO

SCOPE OF WORK: CONSTRUCT A 84,107 SQ.FT., 3-STORY TEMPLE WITH PEDESTRIAN BRIDGE CONNECTING THE 3RD FLOOR TO A NEW CENTRAL PLAZA SPACE.
SEE SHEET G0.1 FOR OCCUPANCY TYPE AND USAGE BY FLOOR.

✱ A CONDITIONAL USE PERMIT IS REQUIRED FOR THE HEIGHT INCREASE.

PROJECT NARRATIVE

Dharma Realm Buddhist Association
1829 W. Capitol Ave.
West Sacramento, CA

Exhibit 'A'

Project Narrative

The Dharma Realm Buddhist Association ("DRBA") was founded by the Venerable Master Hsuan Hua in 1959 and was established as a statewide federally-approved non-profit religious and educational corporation or the purpose of bringing the orthodox teachings of the Buddhists the entire world.

DRBA established The City of Dharma Realm ("Dharma Realm") in the East Gateway district of downtown West Sacramento in 1976, decades before the nearby Ary City Hall and the West Sacramento Campus of Sacramento City College were built. Dharma Realm is a 16.03-acre religious worship and educational institution operated by DRBA. It is dedicated to world-spread the orthodox teaching of the Buddha. It is a campus-master plan project that will contain the Temple, meditation halls, dining hall, sun's dormitories, administrative offices and educational facilities, such as a private secondary girl's school, Sunday school, primary school classes and camp facilities. As indicated of its master planning process, Dharma Realm obtained the necessary entitlements from the City of West Sacramento ("City") to construct a new Temple Building on 8/1/1996 and an eight-private K-12 on 12/31/2018. The K-12 school was constructed and is currently in operation. The Temple, however, did not proceed due to unexpected circumstances and the permit has expired. Now, Dharma Realm is ready and is submitting this application to construct a new Temple Building which will be owned within the existing campus.

This Dharma Realm Temple Project ("Temple Project") site is bounded by West Capitol Avenue, Grand Street, Tower Bridge Gateway and Merkley Avenue. It can be easily accessed from the surrounding streets, but the south-west vehicular entrance from Tower Bridge Gateway will serve as the main vehicular access for the Temple Project site. This main vehicular entrance incorporates a large circular drop of area for guests, and a passive pathway accompanies one walks and a small canopy. At the end of the pathway will be a grand stair that represents the Buddhist spiritual path, and features a series of steps and landings between islands of plantings. The grand stair leads to a pedestrian bridge that accesses the 3rd story at the south side of the Temple building.

At the north-east side of the Temple Project will be the main pedestrian entrance to the project from West Capitol Avenue. The proposed public plaza, located near the West Capitol Avenue and Merkley Avenue intersection, provides welcome invitation to guests to enter the property and explore the landscaped grounds. This plaza provides a comfortable, open space plan and a group gathering area with tables, chairs, and umbrellas for visitors to enjoy. At the same time, it will serve double duty to host large group gatherings during special events. The public plaza leads visitors from the street intersection to the main entrance of the Temple building, and will enhance the pedestrian oriented corridor to both West Sacramento City Hall and the Sacramento City College from the pedestrian plaza entrances creating a sense of civic gathering place and being part of the downtown community.

The proposed temple building is a 3-Story, traditional Buddhist inspired place of worship. The Temple's octagonal shape and its multi-level pagoda style roof incorporates religion Buddhist placement requirements and eastern architectural features. This design will wrap all sides with enriched articulation on the main entries at the north-west and south-west facades (facing West Capitol Ave and Tower Bridge Gateway), thus provides consistent appearance without a defined "back" that is typically less attractive part of the building. The smaller scale existing buildings along the street frontages surrounding the new temple structure create a layered transition from the street to the new multi-story Temple Hall. The proposed Temple is approximately 130,000 total square feet spread over 3 floors. Central function spaces on

Dharma Realm Buddhist Association
1829 W. Capitol Ave.
West Sacramento, CA

each level will be accessed via covered, open, perimeter balconies that provide horizontal articulation and depth to the building facade, as well as serving as a built-in shading element that helps shade the assemble spaces. Vertical articulation is provided with 4 equally spaced switchback/elevator towers allowing good access to the building space that serve the following functions:

- Temple Hall (18,108 sf) and Pedestrian Bridge(10,620sf) on the 3rd Level.
- Lecture space (20,700 sf) on the 2nd Level.
- Kitchen (1,965 sf) / Dining (11,320 sf)on ground Level

Parking spaces are dispersed throughout the site in order to avoid the "large parking lot" appearance. 175 parking spaces will be provided to serve the day-to-day functions of the Temple and normal Temple Hall worship use. During special functions (4-times/year), parking requirements will exceed the provided parking and a minor use permit will need to be approved by West Sacramento. In this scenario the largest occupable function (3rd Floor Temple Hall) determines the parking requirements. This will result in 317 parking spaces being needed at a rate of 1/4SEAT. The additional parking will be provided at an off-site location, and private busing will provide the transportation to and back from the campus. Parking for 12 buses will be provides on-site. During normal, weekday operations, parking required at the site will be approximately 80 spaces.

Consistency with the West Capitol Avenue Design Guidelines

The Temple Project is consistent with the West Capitol Avenue Design Guidelines ("Guidelines").

Building Setback Consistency

14A-3 states: *Projects in the non-Downtown Core districts and along West Capitol Avenue shall have a setback of no more than five feet for non-residential use on the ground floor.*

The Temple project, due to its site requirement and religious alignment, is located at the center of the site. However, Dharma Realm's existing buildings along West Capital Avenue have a setback of no more than five feet, which conforms with Guideline 14A-3.

Site Layout and Building Orientation and Building Articulation

14A-1 states: *The primary building facades and entries for all uses, both commercial and residential, shall be oriented towards West Capitol Avenue and other public edges.*

14A-22 states: *Primary pedestrian facades shall be marked by broad use of doors and windows to create an interesting pedestrian experience. Pedestrians shall be predominate elements on public facing facades.*

14A-23 states: *Buildings shall include creative use of illumination to highlight architectural character of buildings.*

The proposed Temple Project has a welcoming pedestrian plaza originating at West Capitol Avenue, then draws the visitor to walk along a north-south axis that terminates at a grand stair that leads to the main Temple. The Temple has a framed monumental entrance along with articulated north-west facade that is oriented toward West Capitol Avenue.

Dharma Realm Buddhist Association
1829 W. Capitol Ave.
West Sacramento, CA

Furthermore, the proposed Temple Project will be lit up around all sides of building. The site/plaza organization, design of the Temple, and the lighting enhancement will satisfy Guidelines 14e-1, 14e-12 and 14e-21.

Due to both site constraints and the religious significance of the Temple's alignment, the site design compensates for the southern Grand Tank entrance orientation to the Temple by incorporating a new vista, pedestrian entrance into the site where one does not currently exist (the West Capitol Avenue entrance plaza), providing an architectural focal point connecting the Temple Project to West Capitol Avenue. This further ensures the project is consistent with 14e-1.

Gated Plaza Along West Capitol Avenue

The applicant is unable to locate any paths that prohibits re-use of the "Gated Plaza along West Capitol Avenue" and the Dharma Realm's intention is to close the gate at night for security purposes when the Temple is closed. Accessibility would be provided to any emergency services operations for after-hour emergencies. Landscaping can be provided to break up the edge along the property boundary at the location. Otherwise, the applicant requests from the City specific reference to the policy that would prohibit this gated plaza or any other policy that would prohibit a religious institution or educational facility from locking up at night.

Conclusion

As detailed above, the Temple Project is consistent with key Guidelines. This proposed master plan unit its public plaza, education/community services, special activities and richly styled architectural design promotes local residence and public participation. Its presence adds diversity, cultural richness, and attraction for visitors to visit the downtown. It is consistent with the goal of the Guidelines –to "strengthen the entire corridor"; "reclaiming the public realm" and to "encourage greater opportunities for residents, users and visitors to make use of and enjoy the area".

The Temple Project is also consistent with the City of West Sacramento General Plan's Goal LU-1 "To promote the development of unique high-density and intensity mixed-use districts and creates their private-civic and cultural activities." and Policy LU5.8 to "encourage civic, educational and other public uses to locate with in the DD."

The Temple Project - with its on-site vehicular circulation pattern, its proposed public plaza plus pedestrian passages which enhance the connectivity between the surrounding public walkways, and the prominent and innovative Temple building - will be a valuable addition to downtown. It will complete West Sacramentos East Gateway and will become a landmark project that the City will be proud of.

Highlights: Former Use: The building on the site appears in 1949 topographic photos, but its use at that time is unclear until 1963. From 1963 until present day, the building on the site operated as a bowling alley. Ownership varied, but the current property owner took possession ten years ago.

Violations

Violation Date: 01/26/2023 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** Yolo County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

Returned to compliance on 01/26/2023. HSC 6.95 25505(a)(4) OBSERVATION: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years. No training verification observed for the year 2022. -SE CORRECTIVE ACTION: Include provisions in the business plan to ensure that appropriate personnel receive initial and annual training. Submit verification of compliance to the CUPA within 30 days. Conduct training that fufills the minimum requirements of emergency notifications, spill/ release response and emergency evacuation. Send verification to the CUPA within 30 days.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violations

Violation Date: 02/18/2020 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** Yolo County Environmental Health
Citation: HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507
Violation Notes:

Returned to compliance on 02/26/2020. HSC 6.95 25507(a)(1)(A); 19 CCR 4 2729.1(a). OBSERVATION: The Employee Training Plan portion of the HMBP was not completely being implemented. The facility failed to implement a Hazardous Materials Business Plan (HMBP) when storing hazardous materials at or above the thresholds quantities of 55 gallons/500 pounds/200 cubic feet (or 1,000-cubic feet of non-flammable gas). CORRECTIVE ACTION: Begin training employees based on the contents of the Employee Training Plan submitted each year in CERS within six-months of hire and annually. Document training (names and dates) and maintain documentation and make available for at least three-years. Provide documentation of compliance within 30 days.

Violation Description:

Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.

Violations

Violation Date: 03/14/2017 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** Yolo County Environmental Health
Citation: HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507
Violation Notes:

Returned to compliance on 06/22/2017. OBSERVATION: The facility was found to be handling reportable quantities of liquefied carbon dioxide and failed to establish and implement a Hazardous Materials Business Plan (HMBP) when storing hazardous materials at or above the thresholds quantities of 55 gallons/500 pounds/200 cubic feet in accordance with H&SC 6.95 25507 (a)(1)(A). Correction required. CORRECTIVE ACTION: Establish an account and complete an HMBP submittal in the California Environmental Reporting System (CERS) within 30 days.

Violation Description:

Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.

LEAD

Site History:

Tower Court is a 3.52 acre parcel acquired by the Brownfields and Redevelopment Agency of the City of West Sacramento. Previous Site uses include a former automobile repair shop, a former automotive wrecking yard and a former automotive and residential glass repair shop. During investigations conducted in 1998, 1999, and 2007, sampling revealed elevated concentrations of lead in the upper three feet of soil in six separate areas throughout the Site. A limited soil removal took place in 1999, as documented in a document entitled "Summary Report, Lead-Contaminated Soil Removal" dated February 4, 2000. The Brownfields and Redevelopment Agency entered into a Voluntary Cleanup Agreement (VCA) with DTSC in 2009. From 2009 to 2011, the Redevelopment Agency determined background concentrations of arsenic and developed a Removal Action Workplan (which DTSC approved). The Redevelopment Agency dissolved in 2011. Ownership of the property passed to the City of West Sacramento. No activity took place at the Site until 2017, when the City performed additional sampling at the Site during a 2017 investigation which revealed additional areas of the Site with elevated lead concentrations in shallow soil. The RAW was implemented between April 2018 to July 2018.

Cleanup Oversight Agencies: DTSC - SITE CLEANUP PROGRAM - LEAD AGENCY;YOLO COUNTY
School District:
Past Use that Caused Contam: JUNKYARD, VEHICLE MAINTENANCE
Potential Media Affected: SOIL
Site History:

Tower Court is a 3.52 acre parcel acquired by the Brownfields and Redevelopment Agency of the City of West Sacramento. Previous Site uses include a former automobile repair shop, a former automotive wrecking yard and a former automotive and residential glass repair shop. During investigations conducted in 1998, 1999, and 2007, sampling revealed elevated concentrations of lead in the upper three feet of soil in six separate areas throughout the Site. A limited soil removal took place in 1999, as documented in a document entitled "Summary Report, Lead-Contaminated Soil Removal" dated February 4, 2000. The Brownfields and Redevelopment Agency entered into a Voluntary Cleanup Agreement (VCA) with DTSC in 2009. From 2009 to 2011, the Redevelopment Agency determined background concentrations of arsenic and developed a Removal Action Workplan (which DTSC approved). The Redevelopment Agency dissolved in 2011. Ownership of the property passed to the City of West Sacramento. No activity took place at the Site until 2017, when the City performed additional sampling at the Site during a 2017 investigation which revealed additional areas of the Site with elevated lead concentrations in shallow soil. The RAW was implemented between April 2018 to July 2018.

Sites from GeoTracker Search - Cleanup Action Report (as of May 25, 2023)

Action Type: EXCAVATION
Begin Date: 4/10/2007
End Date: 4/30/2007
Phase: Soil
Contaminant Mass Removed:
Description: In April 2007 approximately 900 cubic yards of contaminated soil was removed.

Action Type: EXCAVATION
Begin Date: 1/20/2004
End Date: 1/30/2004
Phase: Soil
Contaminant Mass Removed:
Description: In 2004 a 12,000-gallon diesel UST was removed and 550 cubic yards of contaminated soil.

Action Type: IN SITU PHYSICAL/CHEMICAL TREATMENT (OTHER THAN SVE)

Begin Date: 10/29/2003
End Date: 11/30/2004
Phase: Water
Contaminant Mass Removed:
Description: An air sparging system was operated in the area of the southwest UST cavity.

Action Type: EXCAVATION
Begin Date: 4/10/1988
End Date: 4/20/1988
Phase: Soil
Contaminant Mass Removed:
Description: In 1988 an unknown amount of contaminated soil was removed from the former UST cavity where the two USTs were removed in 1987. No estimate of mass removed.

Action Type: EXCAVATION
Begin Date: 1/10/1988
End Date: 5/10/2007
Phase: Soil, Soil
Contaminant Mass Removed: 11,136 Pounds
Description: Soil removal in 1988, 2004, and 2007 was approximately 1,600 cubic yards of soil resulting in the removal of approximately 11,136 pounds of diesel, 115 pounds of gasoline, and 0.2 pounds of benzene.

Action Type: OTHER (USE DESCRIPTION FIELD)
Begin Date: 4/10/1987
End Date: 4/30/1987
Phase:
Contaminant Mass Removed:
Description: In 1987 a 1,000-gallon and two 10,000 gallon diesel USTs were removed.

Email with consultant - 4 January 2010 13:45 To: Steve Dalton From: David Stavarek re: Fredericksen Tank Lines, 850 Delta Lane, West Sacramento, Yolo Co. Steve, I discussed with my senior the schedule you sent, and it appears we can work with the time schedule you have put together. however, please note that destruction of the wells will require approval from my supervisor, and I may have to change the schedule if management or State Board gives me other higher priority assignments. Please contact me if you have changes to this schedule. thanks, David. David Stavarek, P.G. Engineering Geologist CVRWQCB R5S, UST Unit II 11020 Sun Center Drive, No. 200 Rancho Cordova, 95670 (916) 464-4673 off. (916) 464-4704 fax dstavarek@waterboards.ca.gov >>> "Steve Dalton" 12/30/2009 4:06 PM >>> Hi David. I hope you had an enjoyable Christmas. I just tried calling you but you were out. I don't recall if you're in or out this week. As you requested, below is the estimated schedule for completing the remaining closure items. * January 5, 2010 * Submit a table listing APNs and property owner contact information (mailing addresses) and a map showing all parcels within a 200-foot radius of residually impacted soil and groundwatet to the Regional Board. * January 15, 2010 * Submit draft Additional Investigation and Human Health Screening Evaluation report to the Regional Board. * January 29, 2010 * Receive comments from Regional Board*s review of the draft report and approval to destroy the five groundwater monitoring wells. * February 5, 2010 * Submit final Additional Investigation and Human Health Screening Evaluation report to the Regional Board. * February 15, 2010 * Destroy the five groundwater monitoring wells and the estimated six remaining air sparge wells. * February 26, 2010 * Submit a well destruction report to the Regional Board and submit the appropriate well destruction forms to the Department of Water Resources. * March 12, 2010 * Receive a letter from Regional Board granting No Further Action required status. Please let me know if you have comments/questions. Thanks and have a happy New Year, Steve Dalton, P.G. Telephone conversation with consultant - I (DFS) spoke with Steve Dalton at Kleinfelder. Steve said that they can probably have the inhouse review of the health risk report done by 31 December 2009, but won't be able to get a draft copy to us until 15 Jan 2010. I said I will check with my senior on this time line. Steve said that the diesel detected in groundwater does not match the standard for diesel. I told Steve to contact the lab and ask if they can say whether the detected diesel appears to be degraded diesel. Steve said that their toxocologist has been working with DTSC on TPH guidence regarding health risks. They have been using a guideance document from DTSC since 1997. I said to send us a copy, Steve said okay. Steve said he will try to get us the public participation data by Monday and the report by 15 Jan 2010, I said that should be okay.

Meeting with RP and consultant regarding site work. MEETING CENTRAL VALLEY REGIONAL WATER QUALITY CONTROL BOARD 14 December

2009 Fredericksen Tank Lines, 850 Delta Lane, West Sacramento Attendees: David Stavarek, RWQCB Jayson Javitz, River City Petroleum Greg Michael, River City Petroleum Steve Dalton, Kleinfelder John Baker, Kleinfelder John gives a brief summary of case and items of concern: diesel in groundwater, direct contact to contaminated soil, and soil vapor survey. I concur with Kleinfelder that the trend for TPHd in groundwater indicates a general decline in concentrations; Kleinfelder estimates that TPHd levels in groundwater will reach water quality goals by 2024. TPHd is defined and appears to be limited to MW-3. I indicate that this trend satisfies our concern for groundwater conditions. I concur with Kleinfelder that the soil vapor survey, no petroleum hydrocarbons above levels of concern (Tier I lookup table), and therefore, this issues appears to be satisfied. I said the one remaining issue is the direct exposure to diesel contaminated soil. I said the options are limited excavation and resampling, or to perform a higher level risk that indicates the diesel in soil is not a direct contact risk. Kleinfelder indiates they will have their toxicologist look at this issue. I said they need to determine the future use of the triangle shape piece of property (located between the new road and the Iron Point Development) along the west side of the site. Steve said he has been in contact with the City of West Sacramento regarding this piece of property. Steve indicates he will send us a time line of the work to be done.

Telephone conversation with consultant - I (DFS) spoke with Steve Dalton at Kleinfelder. I asked Steve to send me tables of the new soil and soil vapor data with maps showing sampling locations, and to include the old soil data and those sampling locations. Steve said the soil vapor data shows no risks, but some of the soil data is higher than previous sampling. He said he will have his health risk people look at the data then send it over by Monday. I said I will disucss the issues with my senior.

Title Description Comments:

Email with consultant Item II - >>> "Steve Dalton" 10/19/2009 12:08 PM >>> Because the lines didn't have liquid leaking, I'm not sure if residual amounts remain in the lines. However, due to the staining and odor from the soil beneath the lines on the north end, I would say it is possible that one or more lines may have leaked at one time. Since it's a concern, I would say removal of the lines is a good starting point is hunting down the spikes in MW-3. It won't hurt and it may even bear fruit if we find liquid in the lines during removal. During the field work, I spoke with John Jackson at Yolo County regarding the lines. I told him we would likely remove and that I wanted to discuss with you and the client. Another thought.....there is definitely impacted soil in the vicinity of MW-3. Maybe we should try to perform low flow sampling to assess whether surging caused from bailing "dislodges" petroleum hydrocarbons from soil particles, resulting in biased high concentrations? Steve

Title Description Comments:

Email with consultant Item III - I had the backhoe contractor (RAH Environmental) bring a spill kit when we dug (absorbant pads, drums, buckets, etc.). I had the same concern. Engeo and Kleinfelder have been using CLS, which uses the amber for diesel. I'll check with them on how they handle(d). That sounds like a good approach. Steve >>> "David Stavarek" 10/19/2009 1:20 PM >>> 19 October 2009 13:25 To: Steve Dalton From: David Stavarek re: Fredericksen Tank Lines, 850 Delta Lane, West Sacramento, Yolo Co. Steve, Some thoughts: if you remove the lines make sure nothing gets spilled in the soil, or at least there is contingency to deal with it (line breaks and you get unexpected spill, have some containers to scoop spill into). take a sample of the contents of the lines, if its high in diesel hydrocarbons then it would indicate a source for contamination. Collect sufficient soil samples around the end of the lines nearest MW-3 to see if source(?) in lines was spilling into soil at that end. It is okay to try a low purge to avoid soil particles, also see Kiff regarding filtration (filters, not silica gel) of samples for diesel. This topic will be presented to RWQCB staff by Kiff after one of our staff started raising the question about high and low TPHd in same samples. Also, Kiff has been using VOAs for TPHd which they shake before extracting a sample to run. this causes any particles or clay to become re-suspended and thus enter the sample that will be tested. The old standard method was to use amber bottles and not shake the sample, thus if the sample was left to sit undisturbed for a day or two in the labs cold storage the sediment would settle and a "clean" sample would be extracted and tested. So check with the lab on how they handle the samples and try the low flow. If you change methods, bottles, etc. please note this in a discussion of the results that ties high and low values to respective issues. Also, check how the old samples were handled, the ones with low values and the ones with high values, this may add to the discussion. David. David Stavarek, P.G. Engineering Geologist CVRWQCB R5S, UST Unit II 11020 Sun Center Drive, No. 200 Rancho Cordova, 95670 (916) 464-4673 off. (916) 464-4704 fax dstavarek@waterboards.ca.gov

Title Description Comments:

Email with consultant. Item I - 19 October 2009 6:47 To: Steve Dalton From: David Stavarek re: Fredericksen Tank Lines, 850 Delta Lane, West Sacramento, Yolo Co. Steve, I reviewed the photographs and maps you sent. Removal of the pipelines falls under the jurisdiction of Yolo County Environmental Health Services because they regulate the permits for the UST system. If they are still a source for contamination that impacts groundwater or represents a risk to human health then they must be removed or capped (follow Yolo Co. requirements). However, it appears the pipelines will be in the new roadway which means they will probably be uncovered during road work, therefore, the lines should probably be removed to avoid issues when the road way is constructed. My question, can the diesel detected at MW-3 be tied to the uncapped lines. If it can then once the lines go away the issue of repeated high TPHd at MW-3 should be able to go away with time. This issue must be discussed in the report of this work, and if the lines are not a source for TPHd at MW-3, then another should be found so we can resolve this issue. David. David Stavarek, P.G. Engineering Geologist CVRWQCB R5S, UST Unit II 11020 Sun Center Drive, No. 200 Rancho Cordova, 95670 (916) 464-4673 off. (916) 464-4704 fax dstavarek@waterboards.ca.gov >>> "Steve Dalton" 10/16/2009 2:52 PM >>> FYI.... >>> Steve Dalton 10/16/2009 2:50 PM >>> Hi Jayson, I left you a voicemail earlier today. We completed installation of 6 soil vapor probes to 6 feet, sampling of 7 Geoprobe soil borings to 16 feet and backhoe trenches to assess the presence of product lines. We must still sample the soil vapor probes. We have it scheduled for Monday, but the forecast indicates it may rain. So we'll have to wait it out to see. If it doesn't rain, then we can sample Tuesday. If it rains then we need to wait at least two days after a rain event, per regulatory guidelines. In the Geoprobe soil borings, we noted hydrocarbon-like odor and detections of volatiles using our screening meter. I'm confident we will have detections of petroleum hydrocarbons in many of our samples, it's just a matter of at what concentrations. If concentrations are low enough, we may be able to explain it away with a health risk assessment. If concentrations are high enough, continued assessment and/or remediation/soil removal may be needed to mitigate health risk at the site. Regarding the product lines. We found three product lines (one 1.5 and two 2 inch metal pipes) that were not removed during the removal of the two diesel and one gasoline USTs in 1987. They are located at a depth of 2 feet between the two excavations shown on the attached map. We found the northern end of the pipes, but the southern ends went under a truck that cannot be started or moved without being towed. I'm confident they will end approximately 10 feet further south because that's where we excavated to 17 feet in 2007. The truck will need to be moved so that we can expose the southern end. So the total length will be approximately 55 feet. A hydrocarbon-like odor was present in the soil beneath the northern end of the pipes and the soil beneath the pipes appears to be stained. Liquid did not leak out of the pipes (although small amounts may be present between the ends). So that we can assess/remove in the future, I measured the locations of the pipes and buried orange cones at the two ends. I'm pretty sure David Stavarek at the Regional Board will want us to remove the lines and perform confirmation soil sampling beneath. We may want to consider limited removal of impacted soil beneath the pipes. Regards, Steve Dalton, P.G. Email from consultant, Kleinfelder - Hi Dave, I'm working on the work plan addendum. Also, Engeo is no longer working on the project. Kleinfelder will take over groundwater monitoring at the site. See below email from River City Petroleum to Engeo..... Thanks, Steve Morgan, Michael, We sincerely appreciate the work you*ve done on this project. Given the dearth of USTF reimbursements, however, and thereby to save costs, we have decided to consolidate all remediation, sampling, monitoring and other consultant duties. From this point forward, therefore, Kleinfelder will be handling all tasks and services relative to this site. Our records indicate that Engeo already has billed and been paid for its final project, the Q1-09 groundwater monitoring. As a result, we consider our account closed and our engagement completed. Again, thank you for your service. Best regards, Jayson Jayson Javitz General Counsel Fredericksen Tank Lines, Inc. General Counsel (916) 371-4960 (ph.) Telephone conversation with consultant - 27 August through 28 September 2009 I (DFS) spoke with Steve Dalton at Kleinfelder regarding the new, amended, Work Plan. I indicated that we needed the work plan as soon as possible, Steve said he will do what he can to move it along based on his work load. I called Steve on 28 Sept 09 after receiving the work plan and asked Steve to clarify the sampling protocol for K4 and subsequent K1, K2, and K3. Steve said they will do a full scan EPA Method 8270C on K1 sample and then run an 8270C analysis on samples from K1, K2, K3 for the specific SVOCs detected at K4. The samples from K5, K6, and K7 will be analyzed only for naphthalene and 2-methylnaphthalene only as these were the only SVOCs detected previously in this area.

DFS email with Steve Dalton. - DFS email with Steve Dalton. Steve asked if they need to continue analyses for PAHs. Steve stated that the only PAH detected is phenanthrene at J code levels. I (DFS) responded that they do not have to analyze for PAHs if they are non-detect, and phenanthrene may be dropped because it does not have a water quality goal of concern.

Title Description Comments:

Email, DFS with Steve Dalton at Kleinfelder - Hi Dave, I see Jayson at River City Petroleum emailed you yesterday, answering your questions regarding the plans for the Fredericksen Tank Lines property (see below). Regarding your questions about the future roadway (Garden Street).....The roadway has not yet been extended through the site. I attached a couple of Google street-view photos standing at the intersection of Highway 275 (just north of the site) looking south (toward the site, FTL building on left) and north. I'm not sure when the Google photos were taken, but they show the roadway (Garden Street) being constructed in the north facing photo. I remember seeing the street sign hanging on the stop light pole, which said "Garden Street". The south facing photo shows how the roadway is aligned with respect to the site. The aerial showing the roadway alignment in construction fits

with the proposed Garden Street alignment. The source of the proposed roadway we showed on one of our plates is the June 30, 1993 Specific Plan for the West Sacramento Triangle. The cover sheet for the plan is included in the PDF file attached. I didn't attached the entire plan because it's 30 MBs. I can burn it on a CD and provide a copy to you if you would like. In the attached PDF, I also included the specific pages from the plan that we used to located Garden Street as it would project through the site. Because the plan doesn't show Fredericksen Tank Lines, we took a Google aerial, matched the scale to the proposed street layout and overlaid the two. This map is included in the PDF. You'll see they don't exactly match up, but the photographs and high resolution aerial I described above show the roadway is being constructed where we plotted it. I don't have information on whether Garden Street is still going to extend through the site. Earlier today, I left a message with the City of West Sacramento, asking for the status of the future alignment of Garden Street. I'll let you know as soon as I hear back. On a slightly different note.....Engeo will sample the well network this month. They will add PNAs to the analyte list. Next week I will work on a map showing all parcels within 200 feet of the site, a list with the owners' names and mailing addresses for the parcels, and the contact information for the right of ways (roadways, railroad, etc) within 200 feet of the site. Thanks, Steve Dalton, P.G. Project Geologist 3077 Fite Circle Sacramento, CA 95827 Phone: (916) 366-1701 Direct Line: (916) 366-2321 Fax: (916) 366-7013

Title Description Comments:

Visited the site on 23 and 24 April 2007. Excavation work near the southwest corner of the site. Steve Dalton and Brian from Kleinfelder are onsite. John Jackson from Yolo Co. is onsite for about one hour on the 23 April. The old UST cavity is excavated to approximately 17 feet bgs. A gray green layer is encountered at about 12 feet bgs, and has a petroleum hydrocarbon odor. Groundwater comes into the pit approximately 12 to 14 feet bgs. There is no sheen on the water. I discuss options for excavation work with Kleinfelder staff. I said that they should review all old reports to locate areas with petroleum hydrocarbons in soil and determine which areas need to be excavated to remove concentrations that pose a risk to human health based on the future use of the site. I said that they should also remove that soil is a threat to groundwater.

Doc Link:
Title Description Comments:

REGION 5 LETTERS, need work plan by 16 June 2000.

Action Type: Other Regulatory Actions
Action: Staff Letter
Action Date: 5/10/1999
Received Issue Date: 5/10/1999
Doc Link:
Title Description Comments:

REGION 5 LETTERS, letter to RP approving semi-annual sampling of monitoring wells MW-7, MW-11, MW-21, and MW-22.

Action Type: Leak Action
Action: Leak Reported
Action Date: 8/17/1988
Received Issue Date:
Doc Link:
Title Description Comments:

Action Type: Cleanup Action
Action: Excavation
Action Date: 4/10/1988
Received Issue Date:
Doc Link:
Title Description Comments:

In 1988 an unknown amount of contaminated soil was removed from the former UST cavity where the two USTs were removed in 1987. No estimate of mass removed.

Action Type: Cleanup Action
Action: Excavation
Action Date: 1/10/1988
Received Issue Date:
Doc Link:
Title Description Comments:

Soil removal in 1988, 2004, and 2007 was approximately 1,600 cubic yards of soil resulting in the removal of approximately 11,136 pounds of diesel, 115 pounds of gasoline, and 0.2 pounds of benzene.

Action Type: Cleanup Action
Action: Other (Use Description Field)
Action Date: 4/10/1987
Received Issue Date:
Doc Link:
Title Description Comments:

In 1987 a 1,000-gallon and two 10,000 gallon diesel USTs were removed.

Title: VISITED THE SITE ON 23 AND 24 APRIL 2007. EXCAVATION WORK NEAR THE SOUTHWEST CORNER OF THE SITE. STEVE DALTON AND BRIAN FROM KLEINFELDER ARE ONSITE. JOHN JACKSON FROM YOLO CO. IS ONSITE FOR ABOUT ONE HOUR ON THE 23 APRIL. THE OLD UST CAVITY IS EXCAVATED TO APPROXIMATELY 17 FEET BGS. A GRAY GREEN LAYER IS ENCOUNTERED AT ABOUT 12 FEET BGS, AND HAS A PETROLEUM HYDROCARBON ODOR. GROUNDWATER COMES INTO THE PIT APPROXIMATELY 12 TO 14 FEET BGS. THERE IS NO SHEEN ON THE WATER. I DISCUSS OPTIONS FOR EXCAVATION WORK WITH KLEINFELDER STAFF. I SAID THAT THEY SHOULD REVIEW ALL OLD REPORTS TO LOCATE AREAS WITH PETROLEUM HYDROCARBONS IN SOIL AND DETERMINE WHICH AREAS NEED TO BE EXCAVATED TO REMOVE CONCENTRATIONS THAT POSE A RISK TO HUMAN HEALTH BASED ON THE FUTURE USE OF THE SITE. I SAID THAT THEY SHOULD ALSO REMOVE THAT SOIL IS A THREAT TO GROUNDWATER.

Received Issue Date: 3/16/2009
Doc Link:
Title Description Comments:

telephone conversation with Scott Barker - Scott Barker t Kimberley doing review of possible health issues for deep excavation at the site. I said there may be petroleum hydrocarbons and lead, so dust may be issue, also soil disposal may be needed. I said that they would have to contact Yolo Co. Env. Health Services regarding soil disposal. I said that the case is closed so Yolo Co. will be the lead agency.

Highlights: This Phase I was completed to satisfy the City's AAI requirement as a Prospective Purchase of the property. The property was historically used as an adult motel, and was a community nuisance due to its physical blight and high occurrence of police calls for service. The property is strategically located at the gateway to the central portion of West Capitol Avenue, one of the City's main thoroughfares, and has high redevelopment potential. (PPF - 820 & 824 West Capitol Avenue, 7/26/07) Former Use: The property is the location of a 40-unit abandoned motel and nine rental apartment units. Past owners include various motel operators. The City of West Sacramento recently purchased the property, following the completion of this Phase I ESA.

Site History:

The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the CVRWQCB. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the CVRWQCB should be consulted.

Email with consultant - 3 June 2010 14:40 To: Jim Gribi From: David Stavarek re: Former Experience Motel, 820-824 West Capitol Ave., West Sacramento, Yolo Co. James, As I indicated during our telephone conversation earlier today, I am requesting that the former water supply well at this site be drilled out and the casing removed before the borehole is then tremie grouted from bottom to surface grade. I am requesting this well destruction procedure because there are no well construction plans for this well, and therefore, this method should provide a reasonable means to in sure that there is no vertical conduit remaining beneath this site. Please contact me if you have any questions regarding this request. David. David Stavarek, P.G. Engineering Geologist CVRWQCB R5S, UST Unit II 11020 Sun Center Drive, No. 200 Rancho Cordova, 95670 (916) 464-4673 off. (916) 464-4704 fax dstavarek@waterboards.ca.gov >>> James Gribi 6/3/2010 10:54 AM >>> David, We understand that, in consultation with Yolo County and Geocon's representative, you have requested/required that the water supply well at the subject site be decommissioned by fully removing the well casing. This is because specific well construction details for the well are not known. Since this will result in a change order and perhaps significant additional cost for the City, can you verify that the above is true? Thanks Jim James E. Gribi, PG Senior Geologist / Principal Gribi Associates 1090 Adams Street, Suite K, Benicia, CA 94510 phone 707.748.7743 fax 707.748.7763 cell 707.631.1505

Email from consultant - David, A quick note to let you know that we obtained EPA approval for the Site Cleanup Plan for 820-824 West Capitol Ave, West Sacramento and I have uploaded to Geotracker. We held the pre-bid job walk today, and the contractor bids are due by April 9. The City hopes to have the UST removal contractor on board by early May, with hopes of doing the tank removal in May. I will keep you apprised of the schedule. Thx Jim James E. Gribi, PG Senior Geologist / Principal Gribi Associates 1090 Adams Street, Suite K, Benicia, CA 94510 phone 707.748.7743 fax 707.748.7763 cell 707.631.1505

Telephone conversation with consultant - 12/17/2009, 12/28/2009, 12/29/2009: Jim Gribi at Gribi consultants and I (DFS)left phone messages to call, then connected on 12/29/2009 regarding the review of the draft US EPA document for this case. Jim said that he made most of the changes I had sent. Jim asked about he ESLs, I said they are screening levels from Region 2 Water Board and are used for a Tier I risk assessment and that we use them for evaluating risk to human from pollutants in soil. I said that if they use the lowest water quality goal then they should meet the health and safety risk from water.

Telephone conversation with consultant - I (DFS) spoke with John Gribbi at Gribbi Env. regarding sampling plan for site work. I said that the basics of TPHd, TPHg, and BTEX should be done, then depending on concentration and location, do analysis using EPA Method 8260B, 8270C, or both depending on whether it is gasoline or diesel. John agreed and said he would put language in the work plan that satisfies the US EPA requirements, and still be flexable for contingencies.

Title Description Comments:

Telephone conversation with RP - I (DFS) spoke with RP, Rick Toft, at City of West Sacramento, regarding teh 25 August 2009 letter from Brian Newman and setting up Geotracker entries. I told Rick that any reports since 2005 need to be entered and the data as ESI. Rick said that funding for this project will use EPA Funding, but need to select consultant. On 15 Sept 2009 they completed the bid process and had 14 applicants to select from. Selection with approval by the Board will occur 7 October 2009. I told Rick that the letter from Brian was a boiler plate letter to RPs for sites with no recent activity. Rick said he may be able to get Wallace-Kuhl to enter some of the previous documents. I said that would satisfy the requests made in the letter.

Telephone call from Rick Toft at City of West Sacramento to DFS. - 28 October 2008, Rick Toft at City of West Sacramento called me (DFS) called to

ask about the 9 Feb 2009 and what is needed regarding site histroy of USTs. I said we can be flexable on submittal dates as I understanding that funding maynot be available until October 2009. I said a report with a schedule of proposed work and site history can get us by the 9 Feb 2009 due date, then we can work from there. I said to submit what ever they can find on the USTs and site, with copies of the original documents. Rick said around 1947 site was adjoined to adjacent parcel, larger property, but no record of USTs. He said they have permit to dispose of UST contents into sanitary sewer.

EI ID: 10213795
EI Description: Hazardous Waste Generator

Violations

Violation Date: 03/09/2017
Violation Source: CERS
Violation Program: HW
Violation Division: Yolo County Environmental Health
Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Notes:

Returned to compliance on 03/31/2017. This violation was updated because Violation Type ID "1010006" is not a valid entry For CME Program Element "Hazardous Waste Generator". 19 CCR 4 2729.4(d); HSC 6.95 25505(b) OBSERVATION: The business failed to annually submit their hazardous materials inventory and hazardous materials business plan to the California Environmental Reporting System (CERS) database since 2014. The Generator failed to update hazardous material inventory within 30 days when one of the following occurs: A 100 percent or more increase in the quantity of a previously disclosed material; Any handling of a previously undisclosed hazardous materials; A change of business address, business ownership, or business name. CORRECTIVE ACTION: The Generator shall review, revise, and certify the business plan electronically in the California Environmental Reporting System (CERS) within 30 [Truncated]

Violation Description:

Hazardous Waste Generator Program - Operations/Maintenance - General

Evaluations

Eval Date: 03/04/2020
Violations Found: No
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Yolo County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

Facility does not have reportable quantities of hazardous materials. Facility has at most 10-15 gal of new dry cleaning solvent in storage, and 300 CF of compressed nitrogen gas. Waste solvent is stored in 30 gal steel drum. Facility generates less than 100kg of waste per month. Inspection report emailed to Dohee Kim, doheekim81@gmail.com.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Date: 04/13/2023
Violations Found: No
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Yolo County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

The facility has waste solvent stored in a 30 gallon plastic drum. Facility generates less than 100kg of waste per month. No hazardous materials were found at the facility stored in quantities greater than reporting thresholds for Hazardous Materials Business Plan (HMBP) applicability. Inspection report emailed to Jeen Soon Lee, elranchocleaner@gmail.com.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Notes:

Returned to compliance on 03/26/2019. 22 CCR 12 66262.40(a) OBSERVATION: The following manifests were not signed by the Designated Facility Operator: 012485747 dated 01-14-19, 012121450 dated 12-14-18, 012121451 dated 12-14-18, 012121305 dated 11-06-18, 011434318 dated 08-17-18, 011410937 dated 05-23-18, 011410938 dated 05-23-18, 011385472 dated 02-08-18, and 010176769 dated 11-10-17. The Generator failed to maintain copies of hazardous waste disposal records on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Correction required. CORRECTIVE ACTION: Locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the CUPA within 30 days. [Truncated]

Violation Description:

Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violations

Violation Date: 06/16/2022
Violation Source: CERS
Violation Program: HW
Violation Division: Yolo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 06/30/2022. 22 CCR 12 66262.34(f) OBSERVATION: The plastic bins used to accumulate non-salable hazardous waste merchandise were not labeled with the address of the generator. The Generator failed to properly label hazardous waste accumulation containers with the following requirements: the words "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date. CORRECTIVE ACTION: The Generator shall label all containers that contain hazardous waste, including pharmaceutical, and ensure that all hazardous waste containers are marked with all the required information. Submit the completed RTC to the CUPA within 30 days.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 03/07/2019
Violation Source: CERS
Violation Program: HMRRP
Violation Division: Yolo County Environmental Health
Citation: HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507
Violation Notes:

Returned to compliance on 03/07/2019. HSC 6.95 25507(a)(1)(A); 19 CCR 4 2729.1(a). OBSERVATION: Facility was found to not have a physical copy of the HMBP on site. The owner/operator failed to establish and implement a Hazardous Materials Business Plan (HMBP) when storing hazardous materials at or above the thresholds quantities of 55 gallons/500 pounds/200 cubic feet. This was corrected during the time of the inspection. CORRECTIVE ACTION: Ensure that a copy of the HMBP is present on site at the facility and that staff are familiar with it.

Violation Description:

Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.

Waste Code Details

Hazardous Waste Code:	131
Waste Code Description:	Aqueous solution (2 < pH < 12.5) containing reactive anions (azide, bromate, chlorate, cyanide, fluoride, hypochlorite, nitrite, perchlorate, and sulfide anions)
Hazardous Waste Code:	141
Waste Code Description:	Off-specification, aged, or surplus inorganics
Hazardous Waste Code:	214
Waste Code Description:	Unspecified solvent mixture
Hazardous Waste Code:	232
Waste Code Description:	Pesticides and other waste associated with pesticide production
Hazardous Waste Code:	311
Waste Code Description:	Pharmaceutical waste
Hazardous Waste Code:	791
Waste Code Description:	Liquids with pH < 2
Hazardous Waste Code:	D001
Waste Code Description:	IGNITABLE WASTE
Hazardous Waste Code:	D002
Waste Code Description:	CORROSIVE WASTE
Hazardous Waste Code:	D007
Waste Code Description:	CHROMIUM
Hazardous Waste Code:	D009
Waste Code Description:	MERCURY
Hazardous Waste Code:	D010
Waste Code Description:	SELENIUM
Hazardous Waste Code:	D011
Waste Code Description:	SILVER
Hazardous Waste Code:	D024
Waste Code Description:	M-CRESOL
Hazardous Waste Code:	D026
Waste Code Description:	CRESOL
Hazardous Waste Code:	P001

Waste Code Description: 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%

Hazardous Waste Code: P075
Waste Code Description: NICOTINE, & SALTS (OR) PYRIDINE, 3-(1-METHYL-2-PYRROLIDINYL)-,(S)-, & SALTS

Hazardous Waste Handler Details

Sequence No: 1
Receive Date: 20170414
Handler Name: RITE AID NO 6065

Generator Code Description: Very Small Quantity Generator
Source Type: Annual/Biennial Report update with Notification

Waste Code Details

Hazardous Waste Code: 122
Waste Code Description: Alkaline solution without metals (pH > 12.5)

Hazardous Waste Code: 131
Waste Code Description: Aqueous solution (2 < pH < 12.5) containing reactive anions (azide, bromate, chlorate, cyanide, fluoride, hypochlorite, nitrite, perchlorate, and sulfide anions)

Hazardous Waste Code: 141
Waste Code Description: Off-specification, aged, or surplus inorganics

Hazardous Waste Code: 214
Waste Code Description: Unspecified solvent mixture

Hazardous Waste Code: 223
Waste Code Description: Unspecified oil-containing waste

Hazardous Waste Code: 261
Waste Code Description: Polychlorinated biphenyls and material containing PCB's

Hazardous Waste Code: 291
Waste Code Description: Latex waste

Hazardous Waste Code: 311
Waste Code Description: Pharmaceutical waste

Hazardous Waste Code: 331
Waste Code Description: Off-specification, aged, or surplus organics

Hazardous Waste Code: 343
Waste Code Description: Unspecified organic liquid mixture

Hazardous Waste Code: 352
Waste Code Description: Other organic solids

Hazardous Waste Code: 541
Waste Code Description: Photochemicals / photo processing waste

Hazardous Waste Code: 561
Waste Code Description: Detergent and soap

Hazardous Waste Code: 791
Waste Code Description: Liquids with pH < 2

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D002
Waste Code Description: CORROSIVE WASTE

Hazardous Waste Code: D007
Waste Code Description: CHROMIUM

Hazardous Waste Code: D009
Waste Code Description: MERCURY

Hazardous Waste Code: D010
Waste Code Description: SELENIUM

Hazardous Waste Code: D011
Waste Code Description: SILVER

Hazardous Waste Code: D024
Waste Code Description: M-CRESOL

Hazardous Waste Code: D026
Waste Code Description: CRESOL

Hazardous Waste Code: P001
Waste Code Description: 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%

Hazardous Waste Code: P075
Waste Code Description: NICOTINE, & SALTS (OR) PYRIDINE, 3-(1-METHYL-2-PYRROLIDINYL)-,(S)-, & SALTS

Hazardous Waste Code: U165
Waste Code Description: NAPHTHALENE

Hazardous Waste Code: U188
Waste Code Description: PHENOL

Hazardous Waste Code: U279
Waste Code Description: CARBARYL (OR) 1-NAPHTHALENOL, METHYLCARBAMATE

62	3 of4	WSW	0.15 / 801.19	25.16 / 1	TEXACO (FORMER STATION) 831 JEFFERSON BLVD W. SAC. CA	LUST YOLO

County: YOLO

Details

File No:	UST 9
Status:	CLOSED
Material:	GASOLINE
Comments:	FILE L 9: SOILS & GROUNDWATER CONTAMINATION FOUND AT FORMER FUEL STATION SITE. THE SOURCES OF THE CONTAMINATION HAVE BEEN REMOVED FROM THE SITE. THE MAJORITY OF THE CONTAMINATED SOILS WERE EXCAVATED AND REMEDIATED. THE REMAINING PETROLEUM

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB

HYDROCARBONS HAVE BEEN SUBSTANTIALLY REDUCED THROUGH GROUNDWATER PUMP AND TREAT, SOIL VAPOR EXTRACTION, AND AIR SPARGING. IT APPEARS THAT THE EXTENT OF CONTAMINATION REMAINING AT THE SITE DOES NOT POSE A THREAT TO WATER QUALITY. FILE CLOSED DECEMBER 1997 AND ARCHIVED TO 2882UTH IN DECEMBER 2003.

Highlights: This profile is related to a cleanup plan for the property associated with the Bridge District Infrastructure Project. The cleanup planning document includes a plan for excavating, sampling, and disposing of suspected contaminated soil related to the construction of new roadways in the Bridge District. A Phase II related to implementing this plan is currently being prepared, beginning with the preparation of a SAP and QAPP. It is anticipated that the Phase II will completed during the second half of 2010. Former Use: The properties are former industrial facilities.

Highlights:	This profile is related to a cleanup plan for the property associated with the Bridge District Infrastructure Project. The cleanup planning document includes a plan for excavating, sampling, and disposing of suspected contaminated soil related to the construction of new roadways in the Bridge District. A Phase II related to implementing this plan is currently being prepared, beginning with the preparation of a SAP and QAPP. It is anticipated that the Phase II will completed during the second half of 2010. Former Use: The properties are former industrial facilities.

Note: NO RECORDS: As of Oct 2023, there are no Compliance Monitoring and Enforcement (violation) records associated with this facility (EPA ID).

Handler Summary

Importer Activity: No
Mixed Waste Generator: No
Transporter Activity: No
Transfer Facility: No
Onsite Burner Exemption: No
Furnace Exemption: No
Underground Injection Activity: No
Commercial TSD: No
Used Oil Transporter: No
Used Oil Transfer Facility: No
Used Oil Processor: No
Used Oil Refiner: No
Used Oil Burner: No
Used Oil Market Burner: No
Used Oil Spec Marketer: No

Hazardous Waste Handler Details

Sequence No: 1
Receive Date: 20230613
Handler Name: ASOMEO ENVIROMENTAL RESTORATION INDUSTRY LLC, AERI LLC
Source Type: Implementer
Federal Waste Generator Code: N
Generator Code Description: Not a Generator, Verified

No Further Action Dt: 2012-04-13 00:00:00
Qty Rlsd Gallons:
Facility Project Sub Type:
Calenviroscreen 3 Score: 61-65%
Calenviroscreen 4 Score: 65-70%
Site History:

The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the CVRWQCB. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the CVRWQCB should be consulted.

Site History:

The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the CVRWQCB. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the CVRWQCB should be consulted.

Sites from GeoTracker Search - Cleanup Action Report (as of May 25, 2023)

Action Type: MONITORED NATURAL ATTENUATION
Begin Date: 8/15/1984
End Date:
Phase: Water
Contaminant Mass Removed:
Description: We assume that groundwater contamination has decreased due to natural attenuation since the UST system was removed in 1984, and monitoring wells installed in 1986. No estimate of mass of petroleum hydrocarbons that have attenuated.

email with consultant - 22 December 2011 13:00 To: Laura Heberle From: David Stavarek re: Former Chevron No. 9-5878, 1381 West Capitol Avenue, West Sacramento, Yolo Co. Laura, I concur with your request to conduct the well destruction the last week of January and submit a report by 30 March 2012. We understand this delay is due to the property access agreement that Chevron has with the Walgreens, the property owner. Please notify us if there are changes to this date. David. David Stavarek, P.G. Engineering Geologist CVRWQCB R5S, UST Unit II 11020 Sun Center Drive, No. 200 Rancho Cordova, 95670 (916) 464-4673 off. (916) 464-4704 fax dstavarek@waterboards.ca.gov >>> "Heberle, Laura" 12/21/2011 8:53 AM >>> HI David, Attached is the report due date extension request for former Chevron 9-5878 located at 1381 West Capitol Avenue. The agreement that Chevron has with Walgreen's states that we cannot do field work during the last week of November and the month of December (holiday shopping season). The field work is scheduled for January 30 through February 3, 2012 so I have requested a report due date of March 30, 2012, but we will submit the report as soon as possible. Let me know if you have any questions or if you require additional information. Happy holidays!! Laura Laura Heberle Conestoga-Rovers & Associates (CRA) 10969 Trade Center Drive, Suite 107 Rancho Cordova, CA 95670 Phone:916.889.8918 Fax:916.889.8999 Cell: 916.919.0419

Email to Consultant - 14 March 2011 7:30 To: Laura Heberle From: David Stavarek re:Former Chevron 9-5878, 1381 W Capitol Avenue, West Sacramento, Yolo Co. Laura, I discussed the recent (December 2010) groundwater data for MW-23B with my senior. It appears that when looking at all the data from MW-23B that there are periodic spikes of gasoline hydrocarbons. The latest data shows another spike. We need another sample from MW-23B showing the concentrations have decreased below the December 2010 levels. This additional sample is needed because the concentration of benzene is well above the action level and is an increase since the previous (June 2010) data. My supervisor will question closure with the data as it stands. Please sample just MW-23B and send us by email the laboratory reports, copy of the field data sheets and any comments you have; we don't need a formal report. The data should be entered into Geotracker. You may discontinue sampling of all other wells; we will be processing the work plan and closure request in the next few weeks. Make sure all data from the most recent report is uploaded to Geotracker. thanks, David. David Stavarek, P. G. Engineering Geologist CVRWQCB R5S, UST Unit II 11020 Sun Center Drive, No. 200 Rancho Cordova, 95670 (916) 464-4673 off. Telephone conversation with consultant. - After numerous phone messages, I (DFS)spoke with Laura Heberle at CRA on 8Dec2010. I told her we need a written statement from Walgreens indiatng they have read the closure report, understand that the soil does not pass a Tier I risk assessment, and that they do not have any issues with closure and the soil contamination to be left in place. Laura said she has been in contact with Brian Richter at Chevron, and will ask that he send an eamil regarding this issue, which she will pass on to us.

Notification of Soil Vapor Sampling Schedule - Initial schedule indicating location and number of soil vapor sampling locations for health risk assessment.

Action Type: Other Regulatory Actions
Action: Technical Correspondence / Assistance / Other
Action Date: 9/29/2008
Received Issue Date: 9/29/2008
Doc Link:
Title Description Comments:

Email DFS with Laura Heberle at Conestoga-Rovers. (9/29/2008, 6:35) I respond to Laura's 9/25/2008 email, I concur with her request to move the sample locations. I indicate that data needs to be collected at locations that will allow risk assessment for current site use and at locations that assess possible future site use, and define the extent of vapor impact for possible remediation evaluation. I recommend that they sample between former USTs and Walgreens, any location within former Chevron station where a new building would be placed (optional), sample within the former UST area to determine max concentration in soil vapor. (9/29/2008, 8:28) Laura responds with new site plan with five sample locations instead of four. (9/292008, 12: 57) I respond that their new plan is acceptable.

Action Type: Other Regulatory Actions
Action: Technical Correspondence / Assistance / Other
Action Date: 9/17/2008
Received Issue Date: 9/17/2008

Doc Link:
Title Description Comments:

Email, DFS with Laura Heberle at Conestoga-Rovers. (9/17/2008, 12:34) Laura sent notification letter for soil vapor sampling with locations. (9/17/2008, 12:57) I respond to Laura, I recommend moving one sample location to east side of former USTs, to get data between the area of highest concentrations in soil and the existing building. (9/25/2008, 13:58) Laura responds with a new map of sample locations, vapor sample locations are moved to avoid saturated soil in planters

Action Type: Response Requested - Reports
Action: Risk Assessment Report
Action Date: 4/25/2008
Received Issue Date: 12/13/2008
Doc Link:
Title Description Comments:

Site-Specific Human Health Risk Assessment - Risk assessment indicates soil contact and soil vapor intrusion into buildings reprsent human health risks. But CRA indicates that since area of risk is beneath a parking lot and 150 feet from the site building, then should not be a risk. Original date for report in April 2008 was changed to 4 July 2008, then deferred due to delays in field work and review by Chevron.

Title Description Comments:

Telephone conversation with Shauna McGowin at CRA, she I agreed that they could defer the statistical evaluation of the data until the EPA web site is upgraded to the new 4.0 version. However, I indicated that monitoring wells in median divider and roadway should remain because sufficient lanes to divert traffic, and traffic is light enough during periods to allow groundwater sampling. Ms. McGowin agreed that sampling of wells in roadway could continue.

Data Source: U.S. Army Corps of Engineers Geospatial Open Data
Property History:

Between 1942 and 1947 the Army leased 27.8 acres from Sacramento Northern Railway. The site was known as the West Sacramento Yard, the Sacramento District Engineer Storage Yard, the Sacramento Engineering Depot, and the Equipment Yard (Military Warehouse #2). The site was used by the Corps of Engineer Pacific Division as a closed storage area for the military supplies. The government constructed 18,051 square feet of shop space. Ten acres of gravel paving was added to the property. A directive dated 20 February 1945 authorized the acquisition of the property in a fee interest, in lieu of leasehold interest. The entire 27.8 acres were surplused 31 July 1947 and the lease cancelled effective 31 October 1947. It is unknown if Sacramento Northern Railway took back the property or if another interest was involved. Also, it is unknown whether there was a recapture clause or restoration provisions.

Violations

Violation Date: 11/10/2016
Violation Source: CERS
Violation Program: UST
Violation Division: Yolo County Environmental Health
Citation: 23 CCR 16 2636(f)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(2)
Violation Notes:

Returned to compliance on 11/10/2016. 23 CCR 16 2636(f)(2) Line leak detector of tank # 1 (87 product) failed the test. BZ Service Tech. corrected the violation on site by replacing the faulty sensor. OBSERVATION: The Owner/Operator failed to repair/maintain pressurized piping to meet one or more of the following requirements: monitored at least hourly with the capability of detecting a release of 3.0 gallons per hour, and will restrict the flow of product through the piping or trigger an alarm when a release occurs. CORRECTIVE ACTION: Repair/maintain pressurized piping to meet one or more of the following requirements: monitored at least hourly with the capability of detecting a release of 3.0 gallons per hour, and will restrict the flow of product through the piping or trigger an alarm when a release occurs and submit verification of compliance to the CUPA within 30 days. [Truncated]

Violation Description:

Failure of the line leak detector (LLD) monitoring pressurized piping to meet one or more of the following requirements:Monitor at least hourly.Be capable of detecting a release of 3.0 gallons per hour at 10 p.s.i.g.
Restrict or shut off the flow of product through the piping when a leak is detected.

Violations

Violation Date: 11/25/2019 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** Yolo County Environmental Health
Citation: HSC 6.7 25290.1(c)(3),25290.2(c)(3) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(c)(3), 25290.2(c)(3)
Violation Notes:

Returned to compliance on 12/24/2019. HSC 6.7 25290.1, 25290.2, 25291 OBSERVATION: The Owner/Operator failed to maintain under-dispenser containment, sumps, and/or other secondary containment in good condition and/or free of debris/liquid. Today, Monday, Nov. 25th, 2019, during the inspection approximately 2-3 gallons of petroleum product was noted inside the turbine sump of tank # 7 (87 Product). It must be added that the amount of fuel inside the turbine sump was not high enough to trigger an alarm. After examining the equipment inside the turbine sump and the dispensers, I noticed that the fuel possibly entered the turbine sump through the secondary piping that initiated from the Under Dispenser Containment (UDC) of dispenser #5 & 6. The trace of fuel was noted inside the secondary pipe. It is worth mentioning that at the dispenser #5 & 6 there was some fuel inside the UDC. I also noticed some epoxy patchwork around the [Truncated]

Violation Description:

Failure to keep water out of the secondary containment of UST systems installed on or after July 1, 2003.

Violations

Violation Date: 12/14/2016 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** Yolo County Environmental Health
Citation: 23 CCR 16 2632(d)(1)(C), 2641(h), 2711(a)(8) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2632(d)(1)(C), 2641(h), 2711(a)(8)
Violation Notes:

Returned to compliance on 01/09/2017. 23 CCR 16 2632(d)(1)(C), 2711(a)(8) **Facility operator has not yet submitted a revised site plan to the Yolo County through CERS** Facility operator stated that he will submit a revised site map to the Yolo County within a couple of days. OBSERVATION: The Owner/Operator failed to submit, obtain approval, and maintain a complete/accurate plot plan. CORRECTIVE ACTION: Submit, obtain approval, and maintain a complete/accurate plot plan to the CUPA within 30 days.

Violation Description:

Failure to submit or update a plot plan.

Violations

Violation Date: 11/10/2016 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** Yolo County Environmental Health
Citation: 23 CCR 16 2712(b) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)
Violation Notes:

Returned to compliance on 01/09/2017. 23 CCR 16 2712(b) OBSERVATION: The Owner/Operator failed to maintain written monitoring and maintenance records, records of repairs, linings, or upgrades for the UST system for a period of 3 years, 6 1/2 years for cathodic protection, and 5 years for written performance claims pertaining to release detection systems OR were not found on-site. Facility did not have any records regarding recent replacement of the dispensers and changing 89 product to diesel fuel. It is worth mentioning that the facility obtained a UST repair / upgrade permit from the Yolo County in August 2016 but failed to follow a portion of the UST permit condition tthat required to contact a Yolo County HazMat inspector at least 48 hours before doing any repair. Therefore, Yolo County EH was nopt aware of the repair that took place. Facility opperator must provide Yolo County with all the information regarding the repair / [Truncated]

Violation Description:

Failure to maintain records of repairs, lining, and upgrades on site, or off site if approved by the CUPA, for the life of the UST.

A copy of this report will be sent to Ms. Lisa Quilon: LisaQuilon@gmail.com NOTE: Today during a follow up inspection from the facility, Ms. Lisa Quiolin, facility manager stated that as of Dec. 21, 2018 the facility has entered a partnership with another owner by the name of Mr. Rakesh Kumar. According to Ms. Quoilin's statement both Mr. Sarabjit Shoor & Mr. Kumar are in charge of the facility. Please be advised of the following: 1) Facility must report the change of ownership / partnership to Yolo County as soon as possible and no later than 10 days. Ms. Quiolin stated that the change in ownership took place in Dec. 2019. 2) Facility must submit a copy of the "Return to Compliance" (RTC), indicating whether or not facility corrected the violation that the facility was cited for on Nov. 19, 2018. 3) Facility must submit a complete HMBP to Yolo County as soon as possible and no later than 10 days. It is worth mentioning that the facility will be charged for [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Facility was given 7 days to correct all the cited violations otherwise the Yolo County will Red Tag the facility which will unable the facility to receive petroleum products. It is worth mentioning that today service technician stopped by the facility and open the sumps and UDC covers. Approximately 1 quart of diesel fuel was noted inside the turbine sump of the 91 product in which the service tech. removed the product. Service tech stated that they are planning to repair the UCDs by tomorrow since they have received the parts that they needed. I (Bahram Kavousi-HazMat Sp.) will stop by the facility to witness the repair.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Notes:

Today (nov. 10, 2016 approximately 5-6 gallons of diesel fuel was noted inside the turbine sumps of the tank #1 & 2 in addition to approximately 1/2 gallon inside the UDC #3,4,5 and 6. It is highly plausible that the leak caused by faulty boots inside the UDC when they replaced the dispensers. The source of the leak is not clear yet but it appears that is coming from inside the dispensers due to faulty gaskets. Diesel fuel from the UDC manged to end up inside turbine sumps through secondary piping. On the same day (Nov. 10, 2016) facility operator contacted Midvalley Consultant (Company that recently did the repair / upgrade) and informed them of the issue. Midvalley Con. is sending a technician to assess the problem and to fix it. Facility operator must immediately correct this violation and inform the Yolo County regarding the progress. it is worth mentioning that the BZ Service Technician also reprogrammed the Veeder Root since they had a problem with positive [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Site History:	

The property is currently occupied by the River City Baseball Group, the current owner and operator of the ballpark facility, a new multi-use open-air structure stadium that serves as the home for the Sacramento River Cats. Univar USA Inc. (Formerly Van Waters & Rogers) purchased the facility in 1959 for chemical storage and distribution operations, resulting in the storage, handling, and re-packaging of PCE; 1,1,1-TCA, acetic acid, acetone, Texanol, diesel, and propylene glycol. These chemical distribution operations at the site caused contamination of soil and groundwater with solvents, mostly PCE, TCE, vinyl chloride, cis-1,2-DCE and trans-1,2-DCE. Initial cleanup operations for soil and groundwater were incorporated into the stadium design during construction of Raley Field. Univar USA Inc. is primarily responsible for the environmental cleanup operations at the site. Site investigative activities were initiated in 1988 in response to potential leaks from Underground Storage Tanks (USTs). The USTs were subsequently removed in 1991 and since then, no chemicals have been stored in bulk at the site. Univar operated soil vapor extraction/air sparging from 1995 to 1997. In 1999, the system was decommissioned and a combination of in-situ bioremediation and groundwater extraction and treatment systems were installed. Groundwater is being amended with a food source (sodium lactate) and nutrients to stimulate the growth of indigenous bacteria for enhanced anaerobic dechlorination.

County: YOLO

Details

File No: USTL 10
Status: CLOSED
Material: GASOLINE
Comments: FILE LR 10 - IN THE SPRING OF 1985, THREE UNDERGROUND GASOLINE STORAGE TANKS WERE REMOVED FROM THE SITE. TWO OF THESE TANKS WERE PITTED AND LEAKING. SOIL CONTAMINATION WAS OBSERVED, FLOATING PRODUCT WAS FOUND ON THE GROUNDWATER. SOILS WERE EXCAVATED IN 1986 AND REMEDIATED ON SITE. GROUNDWATER EXTRACTION AND TREATMENT WAS IMPLEMENTED. BASED ON THE LEVELS OF CONTAMINANTS REMAINING AFTER EXCAVATION OF THE TANK PITS AND THE LOW TO NON-DETECT LEVELS OF CONTAMINANTS IN GROUNDWATER FOLLOWING THE GROUNDWATER REMEDIATION EFFORTS, IT APPEARS THAT THERE IS NO LONGER A THREAT TO WATER QUALITY FROM THE SOILS AT THIS SITE. THE CASE WAS CLOSED IN JULY 1997. FILE WAS ARCHIVED TO 3133UTH IN DECEMBER 2003.

Cleanup Status: INACTIVE - ACTION REQUIRED AS OF 8/25/2017
Cleanup Oversight Agencies: DTSC - SITE CLEANUP PROGRAM - LEAD AGENCY
School District:
Past Use that Caused Contam: BATTERY RECLAMATION, BATTERY STORAGE
Potential Media Affected: SOIL

Potential Contamin of Concern:

LEAD, ORGANIC (TETRAETHYL LEAD)

Site History:

The Site is currently occupied by the owner, the Sacramento Stucco Company. The Sacramento Stucco company specializes in cement base coats and finishes , paints, electrometric coatings and textured acrylic finishes. The fenced Site include an office, warehouse, and parking. C&S Battery and Lead Company (C&S) operated at the Site from approximately 1973 to 1978. The processes on-site included the reclamation of lead from lead-acid batteries. Hazardous materials were discovered at the Site after C&S ceased operations. The Department of Health Services, hazardous Materials Management Section (A predecessor to Department of Toxic Substances Control) collected samples at the Site. In September of 1979, a "Complaint and Request for Preliminary injunction and Civil Monetary Remedy" was filed in California Superior Court to compel the operators of C&S to abate the hazards present at the Site and notify all future owners of the presence of hazardous substances in the soil at the Site. The investigations lead to the removal of the top two inches of soil. The site is zoned for industrial use. In 1980, portions of the Site were excavated to remove contamination present at the Site. The concentration of lead at the Site was eventually reduced from 87,000 mg/kg to 1,500 mg/kg. The soil was disposed of at an approved landfill.

LEAD, ORGANIC (TETRAETHYL LEAD)

Site History:

The Site is currently occupied by the owner, the Sacramento Stucco Company. The Sacramento Stucco company specializes in cement base coats and finishes , paints, electrometric coatings and textured acrylic finishes. The fenced Site include an office, warehouse, and parking. C&S Battery and Lead Company (C&S) operated at the Site from approximately 1973 to 1978. The processes on-site included the reclamation of lead from lead-acid batteries. Hazardous materials were discovered at the Site after C&S ceased operations. The Department of Health Services, hazardous Materials Management Section (A predecessor to Department of Toxic Substances Control) collected samples at the Site. In September of 1979, a "Complaint and Request for Preliminary injunction and Civil Monetary Remedy" was filed in California Superior Court to compel the operators of C&S to abate the hazards present at the Site and notify all future owners of the presence of hazardous substances in the soil at the Site. The investigations lead to the removal of the top two inches of soil. The site is zoned for industrial use. In 1980, portions of the Site were excavated to remove contamination present at the Site. The concentration of lead at the Site was eventually reduced from 87,000 mg/kg to 1,500 mg/kg. The soil was disposed of at an approved landfill.

Violations

Violation Date: 12/14/2017
Violation Source: CERS
Violation Program: UST
Violation Division: Yolo County Environmental Health
Citation: 23 CCR 16 2641(a) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2641(a)
Violation Notes:

Returned to compliance on 12/14/2017. 23 CCR 16 2630(d), 2641(a) OBSERVATION: Failure of sensor to be located in the proper position/location. ** The 208 liquid sensor was not positioned at the proper location. During the inspection service tech. placed the sensor at the lowest portion inside the sump below the secondary piping where any releases of product will be detected at the earliest amount of time. ** CORRECTIVE ACTION: Locate sensor to the proper position/location. Submit verification to the CUPA within 30 days.

Violation Description:

Failure of leak detection equipment to be located such that equipment is capable of detecting a leak at the earliest possible opportunity.

Violations Found: No
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Yolo County Environmental Health
Eval Program: UST

Eval Source: CERS
Eval Notes:

The five gallon spill container failed the visual inspection test after putting water inside the container. Service technician identified the cause of the water loss that was due to a faulty fuel delivery cap (cap positioned at higher than 5 gallon liquid). Service Tech. replaced the faulty cap. It is worth mentioning that the facility has already performed the Overfill Spill Prevention Equipment inspection on Oct. 9, 2018 (OPW - Restrict the flow) and it passed. Today during inspection all monitoring systems passed the test. Thank you for your cooperation. E-mail:mm350w@att.com; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Date: 12/14/2020
Violations Found: No
Eval General Type: Compliance Evaluation Inspection

Eval Division: Yolo County Environmental Health
Eval Program: UST
Eval Source: CERS
Eval Notes:

Today, Dec. 14. 2020, during a telephone conversation Mr. Jaime Jauregui (Tait's Service Technician - 916-534-4627) reported that the UST system passed the test. It is worth mentioning that today, I, (Bahram Kavousi - HazMat Sp.) could not be present during the inspection due to an issue with my computer and not having access to electronic inspection form and also due to the restrictions & safety measures relating to the pandemic. Mr. Michael Miller, the facility's ESM also confirmed that the UST system passed the test. The Designated Operator monthly reports were also up to date. A copy of this report will be sent to Mr. Miller. Thank you for your cooperation and please feel free to contact me if you have any questions regarding this report.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Yolo County Environmental Health
Eval Program: UST
Eval Source: CERS
Eval Notes:

On December 13, 2021, due to heavy rain and being sick, I (Bahram Kavousi- HazMat Sp.) could not attend the already scheduled testing. I informed the service technician to proceed with the test and keep me informed of the test results. Mr. Carlos Cardenas (Tait Testing Co.) briefed me regarding the test results. I was informed that the system passed the test. I also discussed the D.O reports and will review them during my next meeting with Mr. Michael Miller (AT&T Rep.); Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Date: 12/14/2017
Violations Found: Yes
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Yolo County Environmental Health
Eval Program: UST
Eval Source: CERS
Eval Notes:

Field Note / Observation: 1) Due to wind and vibration caused by traffic in Highway (I-80) the spill bucket could not be tested using Incon device. After many attempts and failing to use the Incon system the service technician used the regular lake test procedure (1 hour test). Spill bucket passed the test. 2) It was recommended to place / secure the 208 liquid sensor inside a PVC pipe in order to hold the sensor at a vertical position. Ms. McDaniel (AT&T Environmental Site Manager) agreed to discuss the issue with their management. Thank you for your cooperation.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Title Description Comments:

Telephone conversation with RealEstate broker. - Matt at Bank of the West reviewing case for JDL properties called, he said he had a Phase I/II report that indicates two 8,000-gallon USTs were removed and there is a 10,000-gallon UST indicated to be beneath the site, but never removed. I told Matt to contact Yolo Co. regarding there files on USTs, because they permit and inspect the USTs, therefore, they should have better info on whether the 10,000-gallon UST is/was beneath the site. Matt asked if we could amend our closure memo of this case to reflect that the 10,000-gallon UST does not present a problem because it was never beneath the site. I told Matt that we would need data that supports this conclusion to make any changes, but without any data we can not change the closure letter. I told Matt I was never involved with this case. Matt said he will contact Yolo Co.

Highlights: This assessment studied a portion of the infill redevelopment area known as The Bridge District. The district is a 188-acre former industrialized infill opportunity area. This summer, the City and its development partners will be starting a 60 million infrastructure project that will provide new streets, utilities, and other amenities necessary to support the first phase of urban infill development in the Bridge District. This Phase I, as well as others, was done as part of the City's due diligence process in acquiring property necessary to begin construction on the infrastructure project. Former Use: The property is vacant and is located in an area that was formerly used for industrial purposes.

Highlights: The Redevelopment Agency is considering the purchase of this property, located in the Bridge District (Triangle Specific Plan) area, a planned high-density mixed-use redevelopment area. The site is needed to install infrastructure that is necessary to advance the redevleopment of the Bridge District area Former Use: The property was vacant until a wharehouse was contructed at the site in the 1950s. The property was purchased by the current owner for the operation of gas station. This operation ceased in the late 1990s or early 2000s, and four underground storage tanks were removed from the site. The California Regional Water Quality Control Board required the owner to conduct groundwater testing following the removal of the tanks, and in 2008 a no further action letter was issued by the State for this site.

Action Type: Response Requested - Other
Action: Verbal Communication
Action Date: 6/7/2010
Received Issue Date: 6/7/2010
Doc Link:
Title Description Comments:

Telephone conversation with consultant - I (DFS) spoke with Kurt Balasek at BSK regarding closure of the site. Kurt said the site would stay in the family under the same business as currently. I said that if they are looking at closure then need to look at water quality and human health issues, and to send us a list of site owners within 200 feet of the former USTs, and their contact information. Kurt said that work will depend on payment schedule because their is an outstanding balance on what the RP owes BSK.

Email from Yolo County Environmental Health Services - Good Morning Ms. Natal, I have no objections to your proposal. To ensure that the permit is processed smoothly at my agency, please provide a copy of this email along with the permit application, site plan, and fees to my office. Thanks, JP Jeff Pinnow Supervising Hazardous Materials Specialist Yolo County Health Department, Environmental Health Division 137 N. Cottonwood Street, Suite 2400 Woodland, CA 95695 Tel: 530-666-8646 Fax: 530-669-1448 jpinnow@yolocounty.org ----------

From: Rebecca Natal [mailto:jpinnow@yolocounty.org] Sent: Wednesday, April 04, 2012 10:52 AM To: Jeff Pinnow Cc: jpinnow@yolocounty.org; 'Robert Marty'; jpinnow@yolocounty.org Subject: FW: Ricky's Chevron (1015 Jefferson Boulevard, West Sacramento, CA) Good Morning Mr. Pinnow, On 03 April 2012, an e-mail was sent to Mr. David Stavarek, of the California Regional Water Quality Control Board (CRWQCB), regarding destruction of ground water monitoring wells associated with the Ricky's Chevron (1015 Jefferson Boulevard, West Sacramento) site. My apologies for the oversight, however it seems I forgot to include you on the correspondence list. In February 2012, AGE prepared submitted a work plan to the CRWQCB to destroy ground water monitoring wells associated with the Ricky's Chevron site by over-drilling and grouting. The work plan was approved by the CRWQCB by letter dated 01 March 2012. As we discussed during a phone conversation on 15 March 2012, the proposed destruction method is very costly (drilling costs are estimated to be between $20,000 and $22,000). Furthermore, the investigation and cleanup at the Ricky's Chevron site is funded by the California Underground Storage Tank Cleanup Fund (CUF). The Ricky's Chevron site has approximately $20,763 remaining in the CUF budget allotted for the 2011-2012 fiscal year. To reduce the well destruction costs, AGE is proposing an alternative destruction method for several of the ground water monitoring wells associated with the Ricky's Chevron site. AGE proposes to destroy wells MW-1A, MW-3A, MW-8A, MW-9B, MW-10A and MW-13D using pressure grout techniques. In an e-mail dated 04 April 2012, Mr. Stavarek approved AGE's proposed alternative destruction method for wells MW-1A, MW-3A, MW-8A, MW-9B, MW-10A and MW-13D, provided the destruction method is also approved by the Yolo County Environmental Health Services. Below is a copy of the e-mail that was sent to Mr. Stavarek, along with his reply on 04 April 2012. If you have any questions or require further information, please don't hesitate to contact either myself or Ms. Allison Colavita. My contact information is listed below for your convenience: Office: (209) 467-1006 Direct: (209) 323-6511 Cell: (209) 623-7200 Best Regards, Rebecca E. Email with consultant - 4 April 2012 9:05 To: Rebecca Natal From: David Stavarek re: Ricky's Chevron (1015 Jefferson Boulevard, West Sacramento, Yolo Co. Rebecca, well destruction by pressure grouting to reduce costs for ths work is okay with us provided Yolo Co. Environmental Health Services approves of the method, and the well heads are removed and surface completed with material similar to the surrounding material. Let me know if you need additional time for this work and contact me if you have other questions regarding this case. thanks, David. David Stavarek, P.G. Engineering Geologist CVRWQCB R5S, UST Unit II 11020 Sun Center Drive, No. 200 Rancho Cordova, 95670 (916) 464-4673 off. (916) 464-4704 fax jpinnow@yolocounty.org >>> Rebecca Natal 4/3/2012 4:36 PM >>> Good Afternoon Mr. Stavarek, In the Advanced GeoEnvironmental, Inc. (AGE)-prepared Well Destruction Work Plan, dated 12 February 2012, AGE proposed to destroy all seventeen ground water monitoring wells (MW-1 through MW-16 and EW-1) associated with the Ricky's Chevron site (1015 Jefferson Boulevard, West Sacramento, California) by over-drilling and grouting. The work plan was approved by the California Regional Water Quality Control Board (CRWQCB) by letter dated 01 March 2012. The destruction method proposed in the work plan is very costly; drilling costs are estimated to be between $20,000 and $22,000. The Ricky's Chevron site has approximately $20,763 remaining in the Underground Storage Tank Cleanup Fund (CUF) budget for the 2011-2012 fiscal year, which ends on 30 June 2012. Furthermore, the CRWQCB letter dated 01 March 2012 directs completion of the well destruction activities and submittal of a report by 25 May 2012. To reduce the well destruction costs, AGE is proposing an alternative destruction method for several of the ground water monitoring wells associated with the Ricky's Chevron site. AGE proposes to destroy wells MW-1A, MW-3A, MW-8A, MW-9B, MW-10A and MW-13D using pressure grout techniques. Wells MW-1A, MW-3A, MW-6A, MW-7B, MW-8A, MW-9B and MW-10A are located outside of the lateral dissolved and adsorbed MTBE plume areas (Figures 3 through 7). Additionally, ground water samples collected from wells MW-1A, MW-3A, MW-9B, MW-10A and MW-13D were generally non-detect, though intermittent detections of low concentrations of MTBE have been reported (Table 2). If you have any questions or require further information, please don't hesitate to contact either myself or Ms. Allison Colavita. Title Description Comments:

Email to consultant - 28 December 2011 8:30 To: Daniel Villanueva From: David Stavarek re: Ricky's Chevron, 1015 Jefferson Blvd., West Sacramento, Yolo Co. Daniel, I reviewed the new data and the fate and transport model regarding your recent email. The explanation submitted on 14 December 2011 did not fully address the issue regarding how the new data validates the fate and transport model. We need a discussion that indicates that the new offsite data is within the standard of error for the fate and transport model for at least one of the three scenarios at 100 feet from MW-14. The fate and transport model used a distance of 300 feet from MW-14 as its hypothetical target of impact. The offsite sampling was approximately 100 to 110 feet from MW-14. Using one of the fate and transport scenarios, we need a discussion that indicates that the concentration of MtBE detected at B-7, 7.5 ug/L, is within the standard of error for that distance in the model (the time factor when MtBE reached B-7 is not as important because we do not have the exact start time when the plume began migrating and whether migration has been at a constant rate or variable over the years). If the concentration at B-7 exceeds the concentration of MtBE at 100 feet from MW-14 for all three scenarios, then we need you to rerun the model using the new data to indicate the distance from MW-14 where the plume reaches stability and MtBE is less than 5 ug/L. This is needed because the offsite sampling only shows the relative distance the MtBE has traveled and not where and when MtBE will stabilize at below 5 ug/L. We need this validation of the Fate and Transport model because we do not have a downgradient well that has been less than 5 ug/L for MtBE for a length of time to indicate the plume is no longer migrating downgradient. The trend lines provide possible future dates when MtBE in a monitoring well will be below 5 ug/L, not when the entire plume is stable and below 5 ug/L, therefore, without quarterly monitoring of a zero line downgradient we can not fall back on the trend lines; we need the fate and transport model to work with the data. If you have further questions regarding this issue please call or email me. thanks, David. David Stavarek, P.G. Engineering Geologist CVRWQCB R5S, UST Unit II 11020 Sun Center Drive, No. 200 Rancho Cordova, 95670 (916) 464-4673 off. Title Description Comments:

Email from consultant - William Little 12/14/2011 9:27 AM David, Attached is a response to your comments regarding the site. Please call to discuss the issues. 1015 Jefferson Boulevard, West Sacramento, California : Response to Fate and Transport Model and Offsite Additional Site Assessment Mr. Stavarek, Based on our conversations and discussions within our office, AGE presents the following findings regarding the Fate and Transport Model, presented in the, Closure Consideration Request Report, dated 30 December 2010, and data collected during the additional offsite investigation performed on 22 September 2011 (findings reported in the, Additional Site Assessment Report - September 2011, dated 18 October 2011): Data collected during 22 September 2011 investigation provides offsite definition to the Middle HU3 (45-50 feet bsg) MTBE plume downgradient from the

source area. Results were non-detect above laboratory reporting limits for MTBE. Low concentrations of MTBE were reported in Lower HU-3 (70-75 feet bsg) during the offsite investigation and provide data to evaluate the lateral limits of the Lower HU-3 plume. Based on the reported low concentrations (7.5 ug/l), it can be reasonably assumed that MTBE is migrating further offsite. However, based on the reported concentrations the migrating MTBE plume should be at or near maximum contaminant levels of 5 ug/l and will likely undergo further natural attenuation as continual migration continues. The fate and transport model presented in the above referenced report should be considered validated by the data collected during the additional offsite assessment and is independent of data collected during the investigative activities. Based on results of the additional offsite assessment the above referenced model is considered to represent future subsurface conditions offsite and downgradient of the source area. Should you have any further questions or concerns or require anything further please do not hesitate to contact me. Thank You, Daniel Villanueva Staff Geologist Advanced GeoEnvironmental, Inc. Email with consultant - David, AGE has received and reviewed the email below. AGE will notify the RWQCB 48-hours prior to the performance of the aforementioned field work. Thank you for timely response in relation to this issue. Regards, Daniel Villanueva From: David Stavarek [mailto: jpinnow@yolocounty.org] Sent: Monday, August 22, 2011 10:20 AM To: Daniel Villanueva Subject: RE: 1015 Jefferson Boulevard, West Sacramento, CA - Ricky's Chevron 22 August 2011 10:20 To: Daniel Villanueva From: David Stavarek re: Ricky's Chevron, 1015 Jefferson Boulevard, West Sacramento, Yolo Co. Daniel, thanks for the quick response. I concur with your response to collect grab groundwater samples from two direct push borings 100 and 105 feet southeast of the site, with one sample collected 46 to 50 feet bgs and the other sample at 71 to 75 feet bgs. Please note that you may adjust the sample depth based on field conditions, but samples should be collected as near the two depths as possible to correlate with the groundwater data from MW-14C and MW-14D. Also, you may want to collect a water sample from shallow groundwater, if there is field evidence that gasoline hydrocarbons are present in the shallow groundwater encountered. Shallow groundwater sampling would only be needed if there is concern for cross contamination with the samples from 50 and 75 feet bgs. Please submit the report of the results of this work by 28 October 2011. David. David Stavarek, P.G. Engineering Geologist CVRWQCB R5S, UST Unit II 11020 Sun Center Drive, No. 200 Rancho Cordova, 95670 (916) 464-4673 off. (916) 464-4704 fax jpinnow@yolocounty.org >>> Daniel Villanueva 8/22/2011 9:21 AM >>> David, Thank you for timely reply. In regards to your email (located below) AGE provides the following response and update: • Two sets of grab ground water samples will be collected from two borings located approximately 100 and 105 feet southeast of onsite well MW-14 (see attached figure). A cone penetration drilling rig will be used to advance 1.125-inch rods equipped with a hydropunch ground water sampling assembly to termination depths of 50 feet bsg and 75 feet bsg. Once the total depths are reached, the rods will be pulled up approximately 4 feet exposing a pre-cleaned, disposable screen (sampling intervals = 46-50 feet bsg and 71-75 feet bsg). A pre-cleaned bailer will then be lowered to total depth to collect grab ground water samples. Samples will be collected in 3 unpreserved volatile organic analysis containers and stored on ice. Samples will be shipped to Cal Tech Environmental Laboratories and analyzed for methyl tertiary butyl ether (MTBE) by EPA method 8260. Once samples are collected the boring will be backfilled in accordance with Yolo County standards. • Estimates of when MTBE in ground water beneath the site will reach water quality goals of 5 ug/l will be included for applicable site wells in the report of finding from

the offsite additional site assessment activities. • Upon regulatory concurrence, AGE will obtain the applicable encroachment and drilling permits and begin work within 2 weeks of concurrence. AGE anticipates that a report of findings will be submitted documenting the findings of the investigation by 23 September 2011. Regards, Daniel Villanueva Staff Geologist Advanced GeoEnvironmental, Inc. Stockton • Santa Rosa • Monterey • Brea• Spokane• Reno 1-800-511-9300 jpinnow@yolocounty.org www.advgeoenv.com

Title Description Comments:

Email from consultant - From: David Stavarek [mailto:jpinnow@yolocounty.org] Sent: Thursday, August 18, 2011 2:51 PM To: Daniel Villanueva Subject: Re: 1015 Jefferson Boulevard, West Sacramento, CA - Ricky's Chevron 18 August 2011 14:50 To: Daniel Villanueva From: David Stavarek re: Ricky's Chevron, 1015 Jefferson Boulevard, West Sacramento, Yolo Co. Daniel, I concur with your plan to collect a groundwater sample from a direct push boring at a location offsite/downgradient, to verify the fate and transport model for MtBE migration in groundwater. I concur that collection of a sample at 45 to 50 feet bgs is necessary because that is the water bearing zone where the highest concentrations of MtBE are detected in offsite multiwell MW-14. However, another sample must be collected from another direct push boring, if possible, at a depth of 70 to 75 feet bgs because MtBE has been detected at this depth, and most recently detected at this depth at 23 ug/L. Based on the results from MW-14C and MW-14D, it appears that MtBE has migrated deeper as it migrated offsite; sampling at the proposed location must determine whether MtBE is present in those two water bearing zones. Please contact me if you have any questions regarding this email. I will be out of the office tomorrow, 19 August, and back in on 22 August. David. David Stavarek, P.G. Engineering Geologist CVRWQCB R5S, UST Unit II 11020 Sun Center Drive, No. 200 Rancho Cordova, 95670 (916) 464-4673 off. (916) 464-4704 fax jpinnow@yolocounty.org >>> Daniel Villanueva 8/9/2011 7:51 AM >>> Mr. Stavarek, In email correspondence dated 11 May 2011, Central Valley Regional Water Quality Control Board (CVRWQCB) staff, replied to the AGE-prepared, Closure Consideration Request Report - Revised, dated 01 March 2011. CVRWQCB staff required, "{that] an estimate [be prepared illustrating the] time when MTBE in groundwater beneath the site will reach its water quality goal of 5 ug/l". Additionally, CVRWQCB staff requested that "water samples [be] collected 50 to 100 feet from [onsite well] MW-14 in a downgradient direction and at [a depth ranging from] 45 to 50 feet bsg". AGE provides the following response: • One set of grab ground water samples will be collected from a single boring located approximately 100 feet southeast of onsite well MW-14 (see attached figure). A powerprobe drill rig will be used to advance 1.125-inch rods equipped with a hydropunch ground water sampling assembly to a termination depth of 50 feet bsg. Once the total depth is reached, the rods will be pulled up approximately 4 feet exposing a pre-cleaned, disposable screen (sampling interval = 46-50 feet bsg). A pre-cleaned bailer will then be lowered to total depth to collect one set of grab ground water samples. Samples will be collected in 3 unpreserved volatile organic analysis containers and stored on ice. Samples will be shipped to Cal Tech Environmental Laboratories and analyzed for methyl tertiary butyl ether (MTBE) by EPA method 8260. Once samples are collected the boring will be backfilled in accordance with Yolo County standards. • Estimates of when MTBE in ground water beneath the site will reach water quality goals of 5 ug/l will be included for applicable site wells in the report of finding from the offsite additional site assessment activities. • Upon regulatory concurrence, AGE will obtain the applicable encroachment and drilling permits and begin work within 2 weeks of concurrence. AGE anticipates that a report of findings will be submitted documenting the findings of the investigation by 09 September 2011. Regards, Daniel Villanueva Staff Geologist Advanced GeoEnvironmental, Inc. Stockton • Santa Rosa • Monterey • Brea• Spokane• Reno 1-800-511-9300 jpinnow@yolocounty.org www.advgeoenv.com

Title Description Comments:

Telephone conversation with consultant - I (DFS) spoke with Ally Colavita at Advanced GeoEnvironmental, regarding site status. Ally said that they will prepare a work plan for offsite groundwater sampling, I said to send an electronic mail and I can respond quickly. I said that in the next reports for quarterly monitoring that they need to account for the changes in MtBE in wells; this is most likely due to unusual very wet spring with rain into June. Ally said she will address this issue.
